The Taichung City Golden Hand Award has entered its 20th year and it is a significant year. Since 2002, Taichung County has established the Golden Hand Award, which affirms that enterprises stay in Taichung and work together in the economy. After inheriting the past, a total of 352 high-performance enterprises have been selected in the past 20 years. With all our will, we set up the second "Sacred Mountain of National Protection" for Taiwan.

The 20 award-winning enterprises this year have grown against the trend despite the impact of the epidemic. They are actively seizing the business opportunities after the international epidemic. They are more willing to give back to the society when they got full of orders. They are all selected at the moment and are exemplary enterprises in Taichung's industry.

During the epidemic, Taichung City has repeatedly emphasized the balance between epidemic prevention and economic development, and fully protect the economic momentum of Taiwan and Taichung's industries. We set up rapid test stations in industrial parks and assisted enterprises in handling rapid test at their own expense, actively ensuring the industrial economic momentum, allowing Taichung City to rank No.1 in the Six Capitals for a total of 7 economic indicators in the second quarter of this year. Among them, the number of companies, business registrations, and growths in business registration capital even ranked first in the Six Capitals for five consecutive quarters.

The Taichung City Government continues to promote "Light Tax and Simplify Administration", drastically lowering the Land Value Tax and starting the construction of software and hardware such as the Taichung International Convention and Exhibition Center to strengthen the global competitiveness of local SMEs. Cooperating with the enterprise, we stand on the cornerstone established by our ancestors, and actively face the challenges of the current environment. After standing firm, we will reach the top and achieve the highest level. The 20th anniversary of the Golden Hand Award, bless you to reach higher levels and achieve best results.
