2022 是波濤洶湧的一年，國際上俄烏戰爭造成原物料價格飛漲、影響供應鏈，國內新冠疫情爆發對內需產業帶來全面性的緊縮，內外衝擊之下，要特別恭喜 19 家績優企業在這樣「歹年冬」能逆流而上，創造佳績，榮獲「臺中市金手獎」殊榮，是臺中的驕傲。

感謝企業和市府「堅疫同行」，讓臺中今年度第二季共 10 項經濟指標榮獲六都第一，其中商業登記家數、商業實收資本額成長數 2 項指標蟬聯 9 季全國第一，企業投資臺中更突破二兆元，可見企業對臺中發展有信心，願意加碼投資，立足臺中，放眼全球。

秉持「開不了工的要開工，完不了工的要完工」精神，在市政府積極的推動下，臺中國際會展中心承載著中部產業界最大期待，已在 7 月上梁，讓臺中產業能夠在自己家鄉展出、銷售、行銷，充分發揮「前店後廠」優勢；市政路延伸工程也於 9 月 28 日動工，113 年完工，串聯工業區及市區，縮短交通時間，提升產業國際競爭力。

臺中市政府於去年九月發表「2021 臺中市自願檢視報告」(VLR)，呼應企業 ESG，自環境、社會、及治理三大面向落實永續發展目標，市府將作為企業後盾，支持獲獎企業擔任產業領頭羊，帶領臺中中小企業一齊回饋社會，邁向永續。

2022 is a year of turbulence. Internationally, the war between Russia and Ukraine has caused raw material prices to shoot up and seriously affected the supply chain. Domestically, the outbreak of COVID-19 has caused a comprehensive tightening of the domestic demand industry. Despite these internal and external impacts and crises, we would like to congratulate the 19 high-performing companies that have been able to buck the trend "in bad times" and won the "Taichung City Golden Hand Award." They are the pride of Taichung.

Thanks to the "Great perseverance shown jointly by enterprises and Taichung City Government for epidemic prevention," Taichung has been ranked first among the six municipalities in 10 economic indicators during the second quarter of this year. The number of business registrations and the growth of commercial paid-in capital in Taichung have ranked first in the country for 9 consecutive quarters. Corporate investment in Taichung has even exceeded NTD 2 trillion. These indicators show that enterprises are quite confident in Taichung City's development and are willing to increase their investment to keep a foothold in Taichung and expand their horizons.

Holding fast to the spirit of "Start what you cannot start, finish what you cannot finish," the Taichung International Convention and Exhibition Center construction started in July under active promotion by the Taichung City Government. Carrying the greatest expectation of the industrial circles of central Taiwan, the Taichung International Convention and Exhibition Center will allow the industries in Taichung to exhibit, sell, and market in their hometown to fully exert the "front shop, back factory" advantage. The extension project of Shizheng Road in Taichung also started on September 28 and will be completed by 2024. It will connect the industrial and urban areas, reduce commuting times, and enhance the industry's international competitiveness.

The Taichung City Government published the Taichung City Voluntary Local Review (VLR) in September 2021 in response to corporate ESG that implements sustainable development goals from three aspects: environment, society, and governance. The Taichung City Government will support the award-winning companies as industry leaders to lead Taichung's SMEs to give back to the community and move towards sustainability.

Mayor of Taichung City *Lu, Shiao-Yen*

臺中市金手獎跨過 20 周年，邁入第 21 屆，值此承先啟後的時刻，恭賀共 19 家績優企業獲獎，在國內疫情爆發和全球政經情勢動盪的大環境中脫穎而出，從黑手淬鍊到金手，是「真金不怕火煉」的最佳解讀。

金手獎是全國唯一由地方政府主辦的經濟類獎項，肯定在地績優中小製造業在管理、技術、人力發展、行銷及社會責任的貢獻。今年社會責任更緊扣時下最重要的 ESG 課題，從環境、社會到公司治理，不僅肯定企業優質表現，更感謝得獎企業願永續發展，不吝付出。

今年度評選有 2 大亮點，第一是和疫情共存，快篩和疫苗是過去實地審從未遇過的，但企業臨危不亂，遊刃有餘的表現展現出彈性和堅韌，在艱難的環境壓力下仍持續前行，創造亮麗成績；另一亮點是在獲獎企業中看到改變和進步，願意大刀闊斧的將過去評審給的回饋落實，讓企業經營百尺竿頭，更進一步。

最後要再次恭禧獲獎的企業，在最艱難的時刻中獲獎綻放光彩，這樣的光芒更加璀璨，祝福鴻圖大展。

Twenty years have passed since its inception, and the Taichung City Golden Hand Award is now celebrating its 21st anniversary. On this momentous occasion, we like to congratulate 19 outstanding companies for winning this award. These companies have stood out under the macro environment of local COVID-19 outbreaks as well as geopolitical and economic turmoil. "From black hand to gold hand", these companies epitomize the analogy that "real gold can withstand trial by fire."

The Golden Hand Award is the only economics award organized by local governments in Taiwan to give recognition to the contributions made by local small and medium-sized manufacturers in the areas of management, technology, manpower development, marketing, and social responsibility. Social responsibility is closely connected to the most important ESG issues this year. From environmental, social, and corporate governance aspects, the Golden Hand Award not only recognize the excellent performance of the companies but also acknowledge their commitment to sustainable development.

This year's Golden Hand Award includes two major highlights. The first is the coexistence with COVID-19. Although rapid screening and vaccines were previously unheard of for field reviews, the enterprises were able to remain focused, demonstrate flexibility and tenacity, continue to move forward despite the pressure, and achieve brilliant results during the crisis. The second is the changes and improvements by the award-winning enterprises. Their willingness to substantially implement the feedback suggestions from previous reviews enables them to achieve great success and progress.

Finally, congratulations to the winners again for shining bright during the hardest of times. Such radiance is even more brilliant. I wish you great fortune and prosperity.

經營哲學

東正鐵工廠創立至今，從前端開始皆自行生產製造，精準的掌握整體製程的核心，面對其他品牌現今大多以削價競爭來爭取市場，我們選擇以66年的生產經驗及導入更多元的創新技術，塑造高進入障礙的高品質產品，成為客戶購買空壓機的首選，並鞏固空壓機市場的領導品牌。

企業簡介

東正鐵工廠股份有限公司創立於1956年，生產SWAN天鵝牌空壓機超過65年，從最前端的研發設計到開模、加工等，精準掌握空壓機的製程核心。除了自有品牌SWAN之外，我們也提供國際大廠ODM及OEM服務，為客戶提供完善的客製方案。

為了更貼近市場，我們積極參與國際展覽與各國消費者近距離互動，並隨時掌握最新資訊，參加國際知名展覽如：「德國漢諾威展、埃及國際氣壓傳動展、杜拜國際五金展、馬來西亞機械展、印度工業展、韓國自動化機械展、臺北工具機展等國際展」，提供卓越的產品和服務是我們的榮耀及使命，也是我們恆久不變的信念。

我們在臺灣、泰國、越南、印尼等地皆設有分公司，佈局全球經銷網絡，產品行銷至歐洲、美洲、非洲、中東、澳洲、亞洲等100多個國家，並定期舉辦國際經銷商研討會，與經銷商維持良好的互動關係，無論身在何處，SWAN都能提供您高品質的產品與優質的售後服務。

Since its establishment in 1956 SWAN focus on market demand and dedicating to creating the highest value for customers. Under the leadership of a strong and professional management team, with years of accumulated experience, and the perfect service system, SWAN provides customers with high quality, high efficiency, less maintenance, low pollution, and environmentally friendly air compressors in various industries.

Introduction

Since its establishment in 1956, Tong Cheng Iron Works Co., Ltd. has been manufacturing SWAN brand air compressors for over 60 years. From design, molding, processing to assembling, SWAN manage the manufacturing quality. Our company is ISO 9001:2015 certified and products are with CE certification. In addition to SWAN brand, we also provide ODM and OEM services.

SWAN is the frequent exhibitor among the mechanical exhibitions over the world. Hannover Messe Germany, Airtech Expo Egypt, Hardware+Tools Middle East, METALTECH Malaysia, amtex India, Smart Factory + Automation World Korea and TIMTOS Taiwan are our main exhibitions. Displaying and serving extraordinary products and service are our faith, target, and glory.

SWAN Air Compressor's is headquartered in Taiwan and owns overseas subsidiaries in Thailand, Vietnam and Indonesia. We have sold products to over 100 countries till now. We hold seminars and training courses regularly and participate in large-scale international exhibitions to maintain best relationship with our global customers. No matter where you are, we are well-prepared to provide the highest quality, best products, and after-sales service to you.

惠傑工業股份有限公司

FUIJET TECH CO.,LTD

經營哲學

誠信經營，品質交期至上，致力成為製造業中的服務業。
創造同仁夥伴價值，善盡社會責任，為社會出一份力。

企業簡介

惠傑公司創立於1992年，為了提供顧客高品質的零件，投入CNC精密加工零件代工領域。惠傑公司累積多年技術經驗，關鍵技術包括：球面非球面金屬加工、高精度車銑複合加工、薄型金屬/光電模具精密加工、噴嘴類零件加工、精密主軸研磨加工、減速機伺服馬達零件、汽車/自行車/機車零件加工。市場遍及國內外，備受客戶肯定。

品質需要精確檢驗，才能達到惠傑出品、客戶放心的最高目標。精密生產、嚴格品管，惠傑產品的精密幾何公差達到1 μ 。精益求精的品質態度，通過英國UKAS ISO9001國際認證。產品精度穩定、交貨速度可靠，惠傑以服務的心，積極創造顧客的高滿意度，致力成為產業鏈中，最具價值的合作夥伴。

檢驗設備齊全，包括真圓度機、二次元投影機、三次元量測儀、表面粗度機、同心度機、電子高度規、硬度試驗機、各種內外徑量測設備、萬分雷射精密外徑

★重要記事及獲獎紀錄

- 1992 • 成立惠傑工業股份有限公司
- 2000 • 購置新廠房及新設備
- 2001 • 投入光電模具領域
- 2005 • 通過ISO9001認證
- 2011 • 增購第一台CNC車床機械手臂自動化設備
- 2014 • 增購輪廓儀及兩台蔡司三次元量測儀
- 2018 • 整合及產線重新規劃遷入新廠，及導入鼎新ERP及廠區管理系統
- 2019 • 購置機械手臂自動化設備及4.5軸設備及FANUC六軸關節機器人
- 2021 • 導入40台機台IoT (Internet of Things)
即時生產管理系統 (Realtime MegaFog IOT)
進而可分析設備效率及將產能效率報表E化

測定儀等設備。良好的品質管理制度，是客戶安心、放心的保證，更是惠傑工業贏得客戶肯定的重要原因。

於10年前就開始導入自動化生產，讓人員的運用更有價值，近三年更開始投入數位轉型、機聯網，並與多個工商平臺、學界保持良好互動關係，打造可信賴的團隊，並做組織變革，讓企業的成长更有空間。未來更要積極的推動企業ESG永續經營，並創造更高的公司價值。現在世界局勢多變，要打好公司的體質才能更有彈性的面對不同的局勢。

Create the value of employees ,meet the needs of customers,and fulfill the responsibility of society. Integrity management, quality delivery first, and strive to become the best service partner in the manufacturing industry.

Fuijet was founded in 1992. In order to provide customers with high-quality parts, it has invested in the field of CNC precision machining parts. Fuijet has accumulated many years of technical experience. The key technologies include: spherical aspherical metal processing, high-precision turning and milling composite processing, thin metal/photoelectric mold precision processing, nozzle parts processing, precision spindle grinding, reducer servo motor parts, automotive / Bicycle / motorcycle parts processing. The market is all over the country and abroad, and it is highly recognized by customers.

Quality requires precise inspection in order to achieve the highest goal of Fuijet products and customer reassurance. Precise production and strict quality control, the precision geometric tolerance of Fuijet products reaches 1 μ m. The quality attitude of excellence has passed the UKAS ISO9001 international certification. With stable product accuracy and reliable delivery speed, Fuijet actively creates high customer satisfaction with the heart of service, and strives to become the most valuable partner in the industry chain.

Complete inspection equipment, including roundness machine, two-dimensional projector, three-dimensional measuring instrument, surface

roughness machine, concentricity machine, electronic height gauge, hardness testing machine, various internal and external diameter measuring equipment, ten thousand laser precision external Diameter and other equipment. A good quality management system is the guarantee of peace of mind for customers, and it is also an important reason for Fuijet Industry to win the affirmation of customers.

It started to introduce automated production 10 years ago to make the use of personnel more valuable. In the past three years, it has begun to invest in digital transformation, machine networking, and maintain good interaction with multiple industrial and commercial platforms and academia to build a reliable team and Make organizational changes to allow more room for the growth of the enterprise. In the future, we must actively promote the sustainable management of corporate ESG and create higher corporate value. Now that the world situation is changing, it is necessary to build the company's physique to be more flexible to face different situations.

歐群科技股份有限公司

OCEAN TECHNOLOGIES CO.,LTD

經營哲學

以品質至上、服務第一、永續經營作為本公司經營理念，
並以不斷的創新以達永續之經營成長。

企業簡介

歐群科技，成立於西元 2000 年，憑藉經營團隊優異的研發及管理能力，堅持以品質至上、服務第一、持續創新的精神，製造高科技高節能的細孔放電加工機，產品行銷超過 35 國，受到航太、醫療、刀具等各產業之國際大廠的肯定，已成為「細孔放電加工機的指定品牌及客戶的首選合作夥伴」。

於 2020 年 COVID-19 疫情衝擊，歐群面臨企業轉折點，「危機就是轉機，轉機創造更大的商機」，運用原有機器設備的相關技術進行創新研發，開發微奈米氣泡產生設備，包含：

(1) 活性氧 (O3) 水設備

- 製造天然無毒、無化學殘留，友善環境的殺菌水設備。
- 應用範圍包括生醫器材、化妝品製程、農業場域、食品製程、廢水處理等殺菌除臭系統。

(2) 長效型奈米氣泡活性氧 (O3) 水：

取代酒精、次氯酸及漂白水，環保、無毒、無化學殘留可抑菌、清潔、除臭，是疫情期間最佳的抑菌產品。

(3) 氫水 / 氫氣養生設備：

促進新陳代謝、提升免疫力、維持年經、健康、精力充沛的健康設備，跨足大健康產業。

歐群科技期望能以微薄之力，善盡企業社會責任，一路秉持知足、感恩、善的循環，並以創新研發與持續學習的團隊特質，讓歐群更加堅定，要將最好、最健康的產品呈獻給所有客戶，堅持「用心做好水，成為愛護地球，維護健康的守護者」。

★ 重要記事及獲獎紀錄

2021 • 取得超過 20 件產品專利、設計專利 (含 8 件發明專利)

2020 • 榮獲第 26 屆中部地區傑出經理獎

- 獲得經濟部科技研究發展專案：產業升級創新平臺輔導計畫補助
- 獲得經濟部科技研究發展專案：研發固本專案計畫補助

2019 • 榮獲第 26 屆中小企業創新研究獎

- 榮獲卓越 SBIR 產業貢獻獎
- 榮獲漢翔 KPI 評選榮獲銅質獎

2018 • 榮獲第 25 屆中小企業創新研究獎

- 榮獲第 41 屆創業楷模暨相扶獎
- 榮獲臺中市第四屆傑出產業創新獎

2017 • 榮獲第 26 屆國家磐石獎

- 獲得 SBIR- 高性能六軸細孔放電加工機開發計畫補助
- 成功銷售機台到歐洲 Honeywell 航太大廠
- 與臺灣漢翔航空簽署合作備忘錄
- 成功研發 HP1 新型放電迴路

2016 • 3300 米平方新廠落成 (中正廠)

- 參加 AIRTEC 慕尼黑國際航太展
- 榮獲第十一屆 IMC 全國創新競賽：製造科技類卓越獎

2015 • 完成 CNC 細孔放電加工機自動交換工件系統 (APC)

2014 • 參加 AIRTEC- 慕尼黑國際航空航太展覽會

2013 • 參加 TADTE- 臺北國際航太暨國防工業展、研發控制器並成功上市

2011 • OCT-90120CA CNC 多軸細孔放電加工機榮獲「2011 年工具機研究發展創產品競賽」佳作獎

2009 • 取得超過 15 項產品專利

Our aim to be Quality First and Service-Oriented.

Long run sustainability and keeping innovation to achieve sustainable business growth.

OCEAN Technology Co., Ltd. was established in 2000, it's been with excellent R&D and management capabilities of the management team, and we persist to the spirit of quality first and continuous innovation to manufacture high-tech small hole Drilling EDM machines, and its products are sold in more than 35 countries. Recognized by international manufacturers in aerospace, medical, cutting tools and other industries, it has become "the designated brand of fine-hole electric discharge machines and the preferred partner of customers".

The outbreak of the COVID-19 epidemic in 2020, OCEAN is facing a turning point for the company, "Crisis is turnaround, turnaround creates greater business opportunities", we use the relevant technology to innovative research and development of original machinery equipment to develop Micro-Nano bubble equipment which is including:

1. Ozone sterilizing water equipment

- Manufacture of natural non-toxic, no chemical residues, and environmentally friendly sterilization water equipment.
- The scope of application includes sterilization and deodorization systems such as biomedical materials, cosmetic manufacturing processes, agricultural fields, food manufacturing processes, and wastewater treatment.

2. Nano Bubble Ozone Water

Replacing alcohol, hypochlorous acid-containing water and bleaching water, it can inhibit bacteria, clean and deodorize with environmentally friendly, non-toxic and free of chemical residues. It's applied to various fields.

3. Hydrogen water/hydrogen health equipment

Health equipment that promotes metabolism, enhances immunity, maintains menstruation, health and energy, and has entered the big health industry.

OCEAN Technology Co., Ltd. hopes to fulfill its corporate social responsibility with its modest efforts, uphold the cycle of contentment, gratitude, and kindness along the way, and use the team characteristics of innovative research and development and continuous learning to make OCEAN more determined. Healthy products are presented to all customers, and we insist on "doing good water with your heart and becoming a guardian who loves the earth and maintains health".

勝源機械股份有限公司

LEADERMAC MACHINERY CO., LTD

經營哲學

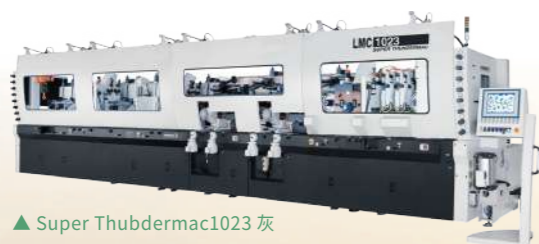

人生唯一的不變是改變，追求卓越。

企業簡介

勝源機械成立於1972年，致力於生產木工機械，主要產品為四面鉋木機、多片鋸木機、自動磨刀機以及自動送料/收料機，近年更專注於整線自動化設備的研發，依客戶的需求提供整廠設備規劃的全方位的服務，堅持以完美性能的機械，幫助客戶提升生產的競爭優勢。

勝源機械自1992年開始以自有品牌「LEADERMAC」行銷到全球六十二個國家。「LEADERMAC」的品牌寓意是機械產業的領導廠商(Leader of Machine)，勝源以「The Moulder of Moulders」為自我期許，歷經多年兢兢業業的耕耘，在穩定中力求成長成為世界級專門製造四面鉋木機的領導指標廠商，打造勝源機械「LEADERMAC」的品牌傳奇。

勝源機械製造的機械通過歐盟CE認證及ISO9001認證，95%的機械銷售至國際市場，其中美洲及歐洲是主要客戶，同時也透過委託製造加工(ODM)的方式，與德國、美國、日本等國家之機械大廠合作。

▲ Super Thubdermac1023 灰

勝源機械無論是廠房規模業績與知名度也不斷蛻變茁壯，但是堅持「最佳品質」的信念始終未曾改變，「客戶需求」更是本公司研發的基礎，依客戶加工需求進行機台客製化或創新研發，我們的目標是以最好的性能與最新的技術幫助客戶提升競爭力並滿足客戶的需求。

近年來，勝源機械也專注於人才培育與學校端進行產學合作培養未來的智慧機械人才，組織的年輕化的工作團隊，讓更多人能有發揮跟學習成長的空間。放眼未來，勝源機械將更加努力，以生產管理數位化、製造業服務化、供應鏈數位化等方向做為未來發展目標，結合科技帶動傳產發展，以堅強的實力面對未來的挑戰。

The only constant in life is change.
In search of excellence.

Established in 1972, Leadermac Machinery started designing and manufacturing high-performance, high-precision 4-side moulders, multiple-rip saws, and grinders. In recent years, we have focused on developing automatic Whole Line System, insisting on the perfect performance of the machines to help customers stay competitive. This enable us to provide total solutions depending on the customers' demand.

Since 1992, Leadermac Machinery has been marketing its own brand "LEADERMAC" to more than 62 countries. The brand name "LEADERMAC" means "Leader of Machine". With the self-expectation of "The Moulder of Moulders", Leadermac has become a world class leading manufacturer of 4-side moulders.

Leadermac Machinery has passed CE & ISO9001 certification. 95% of our machines are

sold to the international market, with America and Europe as our main customers. We Cooperate with major machinery manufacturers in Germany, the United States, Japan for ODM.

One thing that never changes is change. Leadermac changes a lot in the business sizes, production mode, reputation and so on. But our insistence on providing the high quality machines to our customers has never changed. "Customer Demand" is the basis of Leadermac's research and development. Our goal is to help our customers improve their competitiveness and meet their needs with the best performance and the latest technology.

In recent years, Leadermac Machinery has also focused on cultivating talents and cooperating with schools to cultivate future intelligent machinery talents, and build a young work team so that more people can have space to learn and grow.

Look towards the future, we will keep on doing our best to achieve our target (digitalization of production management, Servitization of Manufacturing, and digitalization of supply chain) and meet new challenge.

經營哲學

永續經營的思維是我們一直秉持的信念，在追求企業獲利與成長的同時也重視環境保護、社會責任以及公司治理。

企業簡介

歆錡科技股份有限公司於 1998 年創立於臺灣臺中，在臺灣深耕多年，致力於提供表面處理技術，以半導體與電子零組件表面處理技術資身，服國內外知名顧客，在業績成長期間，同時投身於環保，履行社會企業責任，除努力降低碳排放之外，也實施三期廢水處理工程，投資鉅資在相關設備，挑戰廢水零排放，環境保護不遺餘力。

109 年，疫情肆虐，歆錡科技配合政府腳步，與金屬中心做醫療技術交流，並成功獲得經濟部工研院產業升級創新專案，將成立「臺灣第一個智慧化醫材表面處理中心」，提供醫療級不鏽鋼鈍化與鈦陽極發色製程，提供要生物相容性、抗菌能力、防汙功能，與特殊生物組織介面的表面處理需求。

110 年，全球疫情再次升溫，歆錡在面臨國外疫情肆虐下，仍與臺灣供應鏈夥伴攜手努力不倦，除維持原有國防客戶外，於下半年成功打入頂級超跑車廠供應鏈，成為其中一員，提供尖端無電解鍍表面處理工藝技術，兼顧功能性與外觀美學。

NEWTECH

Newtech was founded in 1998 in Taichung providing surface treatment services to international well known customers in the area of mid of Taiwan mainly in the field of semiconductor industry.

In 2020, when the pandemic COVID-19 started to threaten, NewTech had begun the tech-exchange platform with government. Working with MIRDC in 2021, Newtech has ambitiously established the first Smart Medical Surface Treatment Center in Taiwan based on our highly experienced professionalism to offer total solutions to our customers and partners both locally or overseas in the applications of anti-bacterial, anti-contamination, biocompatibility, and titanium colorization for medical use.

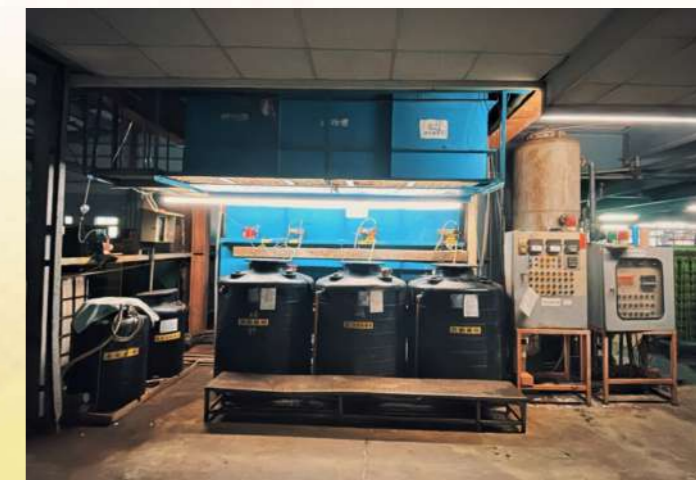

In 2021, we will further upgrade technologies of our process for better quality and better services.

In 2021, facing the threat of pandemic, Newtech further upgrade its techniques and successfully be a member of car manufacturing suppliers, providing cutting-edge electroless nickel surface treatment technology, taking into account both functionality and aesthetics.

Sustainable operation and development is our faith and goal. In analogue to the race of marathons, to win is highly dependent on the sustainable will and training, in addition to the speed and power.

We stick with the virtue of honesty, professionalism, creativity, and service and continue to improve and challenge the changes. Based on the steady cooperation with our customers for prosperous future, NewTech will not only operate in Taiwan but will also has plans for globalization.

In pursuing the growth, NewTech has always kept the environment protection and social responsibility in our focus. There is no limit set for investing resources for reducing carbon release, improving waste water treatment and endeavoring to fulfill social responsibility.

Quality first, customer first, profit creation, sustainable operation

Wen Yang Precision Industry Co., Ltd. was established in 1998. The person in charge of the company adheres to the business philosophy of "quality first, customer first, profit creation, and sustainable operation". Along the way, our team has worked hard, strictly adhered to the field of semiconductor precision mold processing, and continued to strive for the precision processing, grinding, and polishing technology industries. In addition to continuous learning and progress, we also work hard in this field to design customized products for different customers; such as the development of silicon carbide and aluminum nitride micro-engraving molding technology, the design and development of three-level chip injectors, and Bo chip improvement fixtures Group's development research...etc.

Wen Yang Precision Industry Co., Ltd. hopes to be the best partner for Taiwan's top semiconductor factories.

Main business

- Design and manufacture of metal products processing
- Semiconductor automatic slag removal, junction removal, foot bending, forming mold processing and manufacturing
- Semiconductor sealing mold, parts design and manufacturing, precision parts and tungsten steel punching processing
- Professional CNC milling machine processing, electronic components, mechanical parts processing and manufacturing

主要業務

- 金屬製品加工設計製造
- 半導體自動去渣、去結、彎腳、成型模具加工製造
- 半導體封膠模具、部品設計製造、精密零件部品與鎢鋼沖刀加工
- 專業 CNC 銑床加工、電子零組件、機械零件加工製造

經營哲學

打造幸福心企業、滿足員工心生活、創造社會心幸福

企業簡介

▲ 三次元

豪震科技為專業精密零件製造商，從草創初期的銑床加工，逐漸拓展到車床與五軸加工，累積十餘年豐富的流程開發經驗，我們選擇與各大品牌與標竿企業成為夥伴關係，結合多年的專業知識，建立了完整的供應鏈系統，提供全方位的機加工服務。如今從零組件製造、表面處理、產品組裝、功能測試... 整體的複雜製造，提供客戶一站式服務，滿足客戶的全方位需求。

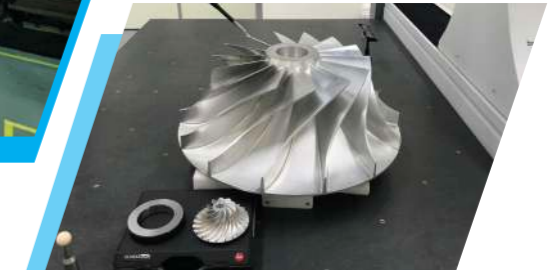

作為 AS 9100 和 ISO 9001 認證的製造商，加工產品皆滿足最高的品質要求，我們長期與要求最嚴峻的全球行業合作；分別是航太、國防安全、半導體、醫療、汽車和能源產業。我們的核心為擁有專業的技術團隊，提供全方位機加工服務，滿足顧客個性化生產和服務，不僅能提供國際級精度品質檢測，產品的生產履歷紀錄也遵守國際航空規範。航太產業的零件製造是完全不容許錯誤空間的。也是所謂的“悠關生命之重要零件”。因此選擇合適且嚴肅對待的加工廠商是航太製造流程的關鍵。

公司經營理念為尊重過去、著眼未來、善盡社會責任的胸懷。多年來，不僅通過擴展設備與獲得新的功能和技術，有效地適應了市場需求，持續啟動人才培育政策積極提昇人員素質。我們也積極產官學合作並熱心參與在地公益活動如社會關懷團體捐款、捐血活動與學童急難救助捐款等等。

「臺灣產業創生，走向國際舞台」是豪震未來十年展望的主題。放眼國際，進軍全球航太市場，一起為建立長期穩定的市場 No.1 地位共同打拼，使臺灣成為「專業領先航太供應商」。

Create a happy enterprise,
meet the lives of employees and fulfill the responsibility of society.

COREGEN is a professional precision parts manufacturer. From the early establishment of the milling machine processing, we gradually expands to the lathe and five-axis processing. We have accumulated more than ten years of rich process development experience, Establish a complete supply chain system to provide comprehensive machine processing services. Today, component manufacturing, surface treatment, product assembly, functional test ... the overall complex manufacturing provides customers with all services to meet the all-round needs of customers.

As a certificated AS9100 and ISO 9001 manufacturer, we have offered product and process quality to meet the highest requirement, thereby winning the confidence of businesses worldwide. We work with the most demanding industries that are building the future; namely aerospace, defense Security, semiconductor, medical, automotive, and Energy.

Our core is to have a professional technical team, provide all-round machine processing services, and meet customer personalized production and services. We can not only provide international accuracy and quality testing, but also the product production resume record also complies with international aviation

specifications. The parts manufacturing of the aerospace industry is completely allowed to do not allow the error space at all. It's what we call "life-critical". Therefore, choosing a suitable and serious processing manufacturer is the key to the aerospace manufacturing process.

The company's business philosophy is to respect the past, focus on the future, and fulfill social responsibility. Over the years, it has not only expanded equipment and new functions and technologies, effectively adapts to market demand, and continues to launch talent cultivation policies to actively improve personnel quality. We are also actively cooperating with the government and schools and enthusiastically participating in local public welfare activities such as donations of social care groups, blood donation activities and urgent help donations.

"Improve Taiwan's competitiveness and move towards the international stage" is the theme of Coregen's development in the next decade. Looking at the world, entering the global aerospace market, and working together to establish a long-term stable market NO.1, make Taiwan a "professional leading aerospace supplier."

STEADY HONESTY, INNOVATING RESEARCH & PURSUE EXCELLENCE

The above mentioned managerial concept for which the GOLDEN LIGHTING EQUIPMENT MFG.CO.,LTD. Has persisted from established. Especially the staff have obeyed the concept and executed, so that, they have grown successively with company.

We deep believe the honesty is the foundation of enterprise developing, Since, our company has observed the concept and executed much more affairs. Anyhow, the business management,administerial management & customer's afterservice etc., Because the company has grown steadily and customer spreaded throughout the world for which all reproduced from the steady honesty cencept put into practiced.

Our company has been with independant manufacturing technology,especially those are being with talented and experienced staff to develop and research day & night for which from lighting improving till to performance design etc., We are committed to develop the best lighting and adapted for use in virtually.

GTE professional LED light is unconventional to the usual bulky shape of machine tool lights. The minimalistic and fashionable exterior design enhances the environmental aesthetics of any installation location. The exquisite exterior is complemented by superior performance, while the super high heat conductivity of the case is made from uni-body aluminum alloy with 25% anti-surge and anti-stress characteristics. Other qualities include:operating temperature of up to 50°C, lifespan of 40,000~50,000 hours, IP67 water-resistance and energy-efficiency, savingtwice as much energy per watt as conventional light bulbs. GTE light collection's sophisticated exterior and durability are not only suitable for machine tools but also for other adverse environments.

JOIN YEN TECHNOLOGY CO., LTD.

經營哲學

勝利夥伴 堅守專業 快速反應 樂於付出
品質第一 客戶滿意 確保交期 服務至上

企業簡介

公司創立於 2000 年，專注於鋁合金表面陽極處理加工，擁有 22 年陽極加工的經驗，以專業的製程作業與堅守經營理念，為客戶提供優質的表面處理服務。秉持著環保減廢、回收再利用的原則，公司內部做了完整的研究與設備投入。焗爐改用天燃氣，磷酸、硫酸回收再利用，蒸氣餘熱回收，太陽能發電建置，污泥烘乾減廢，是我們完成的實績。提供員工良好的就業環境與建立職場升遷的機會也是公司的目標之一。竣淵致力於照顧員工、善盡企業社會責任；並重視環保、綠能、碳中和等全球共同議題，並努力成為表面處理界的標竿。

公司主要營運項目是鋁合金陽極、硬陽處理加工。業務範圍，由早期自行車零件，逐漸拓展至重型機車部份。後導入美國軍用採購規範 MIL-A-8625F 及 ASTM 等技術規範要求，具生產汽車機車、動力機械的能力（如 Ford、TOYOTA 專用避震器）。另外公司也通過 CQI-12 塗裝特殊製程認證。為了達到各項規範的標準，公司購入相關精密檢驗儀器設備，提供精準數據回饋，持續修正製程參數，並將數據完整記錄，確保最高品質穩定產出。因此有成績，更進一步取得美國 SPACE X 公司“星鏈計劃”衛星部品的表面處理加工訂單。證明竣淵具備了高端的技術能力與高附加價值的展現。

近年所有企業面臨人力短缺，因此我們與各院校在人才培育與產學合作達成許多協議。因公司超額進用身心障礙員工並提供工作機會，因而受台中市政府表揚。公司經營之餘也盡力瞭解地方需求，捐贈【幫浦消防車】於市府消防局、捐贈【體外心臟去顫器】於海巡署中部分署。取之於社會、用之於社會，在企業追求營利照顧員工之外，也希望能夠用我們方式對社會有所貢獻。

經營哲學

經營理念在生產上強調「以追求完美，近乎苛求」；
製造上「講求嚴謹、精益求精」；
對外廠商追求「雙贏合作共享利潤」；
對社會的貢獻希望「營造友善環境、打造幸福企業」。

企業簡介

立承精密有限公司創立於 2012 年，廠址落於臺中市大雅區，目前員工近 20 位，近年來以精密模具開發及精密零件製作為主力營業項目，致力於提供客製化產品 & 服務。

早期臺灣模具製造業高速加工機並不普遍，所以硬度 HRC48 以上的模具鋼通常以放電加工，但放電所產生的白層會使材料表面硬化，模具容易崩裂壽命變短，在精度尚也無法提升。然而公司創辦人張恩得、邱建中在高硬度模具「直雕加工」專業領域上，不管是機台特性的選用或者是刀具參數的搭配，累積多年的技術經驗，兩位青年合夥成立「立承」。

公司經營路線明確，初期就投入日本 YASDA 高速銑床，專營各種 CNC 高硬度模具及二~五軸精密零件加工，透過先進的技術、精良的設備及不斷的製程改善，為客戶提供高品質高精度的加工服務，在高硬度模具應用上由高速銑床取代過往的放電加工，不僅提升模具精密度及壽命，也大幅縮短製程時間，因此在模具相關產業間獲得優良的口碑，也奠定了立承公司創新與技術研發的能量。

- 2022 • 引進日本 MATSUI 金屬 3D 列印設備

立承精密秉持著 10 多年的加工製造經驗持續精進，以最先進的設備儀器及專業的核心技術提供客戶最完美的服務，我們服務的客戶群跨足光學、醫療、航太、汽車、運動用品、半導體等，例如知名國際大廠捷普綠點、愛爾蘭商速聯、玉晶光電、宇榮高爾夫等皆是我們合作的夥伴。我們每年也不斷投資新的設備及研發新的技術，讓客戶可以獲得更優質的產品來與國外大廠抗衡順利接單，並提升產業國際競爭力。

The management philosophy is "The relentless pursuit of perfection" in production. "Rigorousness and keep improving" in manufacture. We pursue win-win cooperation and profit sharing for manufacturer. Our main purpose is to make contribution to the society by create an affable environment and a happy enterprise.

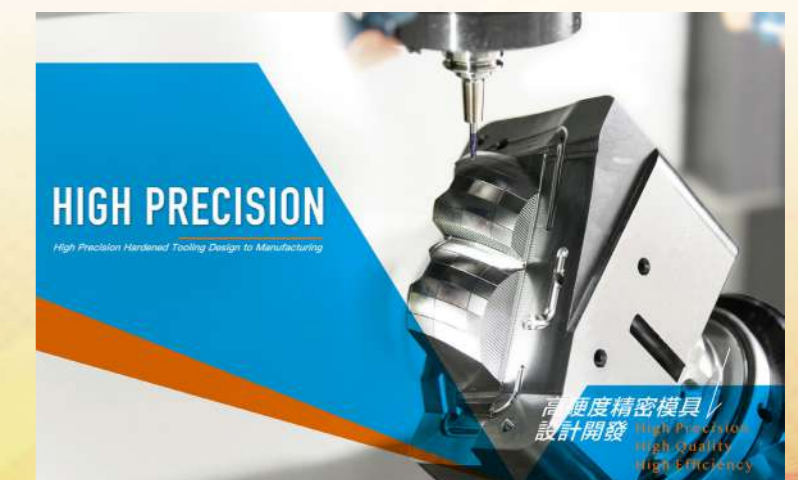

Liy Cheng Precision Co.,LTD was established in 2012. Our company is located in Daya, Taichung. We have nearly 20 employees. In recent years, we focus on develop the precision molds and component, and is committed to provide customized products and services.

In the early stage of mold manufacturing industry in Taiwan, high-speed processing machines were uncommom, so the mold steel with hardness above HRC48 was usually processed by electrical discharge machining. However, the founders of the company, Mr.Chang and Mr.Chiu, have accumulated many years of technical experience in the professional field of "direct machining on pre-hardened material", whether it is the selection of machine characteristics or the matching of tool parameters.

The company's business model is clear. At the beginning, we invested YASDA high-speed milling machine from Japan, specializing in various CNC high-hardness molds and two- to five-axis precision parts processing.

Through advanced technology, precision equipment and continuous process improvement, we provide customers with high-quality and high-precision services. In the application of high-hardness molds, we replaced EDM by high-speed milling machines, which not only improves the precision and service life of the molds, but also shortens the process time hugely. Therefore, it has won a good reputation in mold-related industries, and also laid the foundation in innovation and technology research for Liy Cheng.

Liy-Cheng Precision adheres to more than 10 years of processing experience and continues to improve, with the most advanced equipment and professional core technology to provide customers with the most perfect service. The customer we served include different industries such as optics, medical, aerospace, automobile, sport equipment, semiconductors, etc. For instance, Jabil Green Point, SRAM Corporation, Genius Electronic Optical and Foremost Golf, etc. are all our customers. We also continue to invest in new equipment and research for new technologies every year, so that customers can enhance the international competitiveness by obtain better quality products to compete with foreign manufacturers.

Jiang Dai Electric was formerly known as Jiang Electric Co., Ltd., which was established on May 1, 1979. It was co-founded by three brothers of the Jiang family: Jiang Guobao, Jiang Guoyuan and Jiang Guoqing. In the early stage of business, it was engaged in the maintenance of industrial motors based on technology. In order to respond to the rapid changes in the market, Jiangdai Motor was established on November 27, 1990 and is committed to the production of industrial motors, as well as acting as an agent of selling the motor products from well-known domestic and foreign motor manufacturers, such as TECO and Siemens, Germany. It also actively promotes its own brand, WRS motor and other transmission equipment.

In recent years, laboratory-leveled measurement instruments, VPI vacuum impregnation equipment, motor characteristic testing, dynamic balance correction, American famous brand P-J coil interlayer testing equipment, laser alignment equipment, etc. have been continuously added to serve as post-sale or post-repair performance testing, and proves to be a guarantee of the completion of repair for customers.

瑞麗刀剪股份有限公司

RELEE SCISSORS CO., LTD.

經營哲學

成為全球最大的美髮系列工具品牌，
提供優質的剪刀、梳子和服務，
永遠超乎客戶的想像。

企業簡介

瑞麗刀剪股份有限公司開始於 1999 年，並於 2003 年設立。創辦人於日本大阪學成製造剪刀的技術回臺後，一直專注於美髮專用剪刀的專業設計及製造。公司以「櫻花·OHKA-SAKURA」為註冊商標，主要產品為「美髮沙龍設計師專用的各式功能剪刀」，至今超過 20 年的口碑在美髮界已享負盛名。

公司以代工起家，當時臺灣的技術為鑄造為主，而我們因為擁有鍛造的技術，因而能承接來自日本的訂單；在這時期不間斷的研發新產品、累積新的製造技術及專業的能力，始終堅持「品質第一、永遠客戶至上」的精神，獲得客戶的肯定；近年來公司投入大量資金引進新型精密 CNC 加工機械，並將品質管理的理念貫徹於每個環節，擁有專業的研發、生產、行政管理部門，提供客戶更完善的服務。

以深厚的製造實力做為基礎，自創 OHKA-SAKURA 品牌並開始參與國際上各大美容美髮專業展覽，努力開拓世界各國的經銷據點，目前在美國、義大利、中國、香港、芬蘭、英國、越南及捷克等國家均有代理商；除了傳統的銷售模式外，也朝多元行銷發展，成立品牌網站、經營社群媒體及電商、會員回饋活動、產品包裝改良等，為品牌價值做更進一步的延伸。

公司對於人才的培訓也極為重視，結合政府資源執行小人提及充電起飛計劃，並與大學進行產學合作，讓更多人學習的機會並運用在工作中，與公司一起成長及迎接各種挑戰。

To serve our customers better, stay relevant in their lives, and form lifelong relationships with them. To provide superior quality scissors, thinners, combs and services that stylists and barbers recommend to family and friends, distributors prefer for their clients and our country is proud of.

Relee Scissors Co., Ltd. was established in 1999. Since its founder returned to Taiwan from Osaka, Japan, where he learned to make scissors, he has been focusing on the professional design and manufacture of hairdressing scissors. The company uses its brand "OHKA-SAKURA" as a registered trademark. The main products are flat scissors, sliding scissors, and single and double-edged thinning scissors. This brand has earned a good reputation for over 20 years; it is now well-known in the hairdressing industry.

As a start-up, only OEM projects were undertaken; forging technology at that time enabled us to receive orders from Japan. The development of new products also led to the acquisition of new manufacturing techniques and expertise. We have won the affirmation of our customers through our commitment to "quality first, always customer first". A major investment has been made in precision machines and implementation of quality management in every link of the process, including research & development, production, and administration departments to improve customer service.

Based on its profound manufacturing strength, OHKASAKURA began participating in international exhibitions, striving to develop distributors from all over the world, it has agents in Europe, America, and other regions; in addition to the traditional sales model, it is also developing towards diversified marketing, establishing a brand website, social media and several e-commerce platforms, member feedback activities, product packaging improvement, etc., to further extend the brand value.

The company also attaches great importance to the training of talents. Combined with government resources, it implements the plan of charging and taking off, and cooperates with schools in industry and academia, so that more people have the opportunity to learn and use it in their work, grow together with the company, and meet various challenges.

1951年 永進木器廠擴廠奠基於南屯區

有所值·有所堅持 / 七十多年來的堅持

永進木器廠在五〇年代末，擴廠奠基於臺中市南屯區的犁頭店。70多年前以製作嫁妝的五斗櫃、化妝鏡台起家。隨著臺灣社會經濟的成長，曾自創收音機品牌 Sun Star，也曾製作電視木製拉門、縫紉機等等。

一路踏著堅實的步履，從木製家具製作出口，而建立良好的工業製作基礎。在旺盛的出口工業發展後，產業由於全球性的變化，永進木器積極尋求轉型以求更大發揮空間。由第三代接手，承襲永進原有的木器傳統、工業設計製作基礎及原料處理經驗，再加上全力開發曲木的生產技術及自有設計的發展，使得永進的商品跨足全球，包括北歐、歐洲及日本等等先進國家，並成為國際家具公司的指定製造商。

同一時期，永進即開始思考及建構自創品牌的概念及步驟，並展開對國內市場的佈局及商品的規劃及通路的開發。

1988年創立家具品牌 STRAUSS 2020年家具副牌 STRAUSS Lab 2006年成立有情門銷售通路

有所值·有所堅持 / 屬於臺灣的新工藝特質與獨特風貌

臺灣是美麗的島嶼，時間與空間的歷史交迭使臺灣人包容地廣納不同文化元素，並且轉化為臺灣的人文風貌。永進木器廠的家具，根植臺灣製造技術的整合，設計則融合國際性、本土性、差異性及多元性的交會與沉澱，激盪出屬於臺灣的新工藝特質與獨特風貌，並以消費者的生活形態、空間實用素、機能方便為考量。而臺灣人熱情、友善的特質，懷舊納新的包容性，更是我們努力提供多元家具的動能，期待兼容並蓄的設計風格能完善地詮釋消費者的生活態度並創造獨特的品味！

Core Values: Profession, Design.

Managing Principle: A Polished Performance.

Managing Mindset: A gentleman should based on the foundation and the principle will be born.

Code of Conduct: If it is not customer's problem, it must be our problem.

1951, YEONG JIN FURNITURE FACTORY founded in Nantun district.

Be meritorious, with insistence/ Over 70 years of perseverance.

TWUCM is based on YEONG JIN FURNITURE FACTORY, a wooden furniture manufacturer founded in the late 50s. Starting with making dressers and dressing tables as dowry, YEONG JIN has its roots in Nantun, Taichung. As economy grew and people's livelihood improved, YEONG JIN made changes and progress in products. YEONG JIN produced wooden furnishings such as radio shells, tambour doors of television set cabinets and sewing machine cases.

YEONG JIN laid its foundation from manufacturing and exporting wooden furnishings; however, in step with the global changes of the industry structure, the team sought to transform for a better development. Adopting decades of experienced carpentry and material treatment skills, YEONG JIN expanded to made bentwood and enhanced products by developing its own design. With these efforts, in the 80s, YEONG JIN spread its production to highly developed countries such as North Europe, Europe and Japan. Furthermore, YEONG JIN became designate

manufacturer of some international furniture companies. At that time, YEONG JIN started to sense the competitiveness of branding, therefore, the team launched to build YEONG JIN's own brand name and planned an overall arrangement of marketing in Taiwan.

1988, established furniture brand "STRAUSS"

2006, set up TWUCM retail store.

2020, established Subsidiary brand "STRAUSS Lab"

Be meritorious, with insistence/ A new craft trait and style of Taiwan.

Taiwan is a beautiful island. As time passed, there were diversified peoples and cultures accumulated on the island, these merged into a certain human style and features of Taiwan. The design of STRAUSS furniture is based on the integration of the various cultural features, encouraging a new craft trait and style of Taiwan. The enthusiasm, friendliness and inclusivity of Taiwanese is the motivation for us to provide diversified furniture. Hope our eclectic design style match your attitude of life and creates your unique sense of style!

經營哲學

經營哲學：技術創新·用心服務

品質政策：品質第一·顧客至上·持續改善·永續經營

企業簡介

鈺生股份有限公司於1989年以專業塑膠模具製造廠起家，為服務廣大OEM/ODM客戶需求，二年後投入塑膠射出成型技術，代工射出製品，目前已經經營超過30年。2000年領先同業導入雙色射出成型技術，產品備受國內外客戶肯定。我司主要業務範圍包括塑膠射出製品設計、樣品試做、模具開發、雙色成型、精密成型等。目前舉凡一般生活用品、嬰兒用品、醫療器材、專業氣動手工工具，皆是我司專業領域。

「技術、服務、創新」是我們的經營理念，透過優秀的研發設計團隊與專業的設備及技術，讓我們能夠設計並製作出高品質、符合客戶需求的产品，使生活更加便利創新。企業標語 Ideas in Action，從意念發想到產品實現，為公司的精神及價值。我們堅信品質是永續經營的一大要點，從2006年開始陸續投資一系列的量測設備，以確保產品在功能性、安全性、使用壽命皆可達到國際標準與客戶需求。

2009年擴建新廠搬到大里仁化工業區，同年通過ISO9001品質管理系統與BSCI企業社會責任認證。之後陸續發展自有品牌，投入專業手動氣動工具的研發及銷售，並開始參加國際展覽，近幾年屢獲歐美大廠與日本客戶的青睞。

我司生產使用經國際認證環保材質，機台選用綠能標章機器，實施企業節能減碳，並持續贊助臺灣金點設計獎超過10年，近年來也開放霧峰農工特教生職場實習環境及就業名額，打造產學合作。目前更積極投入自動化生產，打造團隊接班，規劃以機械手臂取代人力，提高產能，降低成本，與客戶創造共贏模式，也為迎接未來的各項挑戰做準備。

茂意興企業有限公司

MAUYISING ENTERPRISE CORPORATION

經營哲學

茂意興企業經營理念是，以最專業的態度，為使用者提供最優質的地球儀，秉持著穩健發展、追求企業永續經營及成長為理念。

企業簡介

茂意興企業有限公司傳承了，何會長炳煌先生於1983年所設計，亞洲第一家以南北半球兩模體成型地球儀專門製造商。

自此，茂意興不斷開發高品質，尋求更多附加功能，更貼近消費者使用習慣的地球儀。像是將地球儀增加有聲筆點讀功能，搭配中英文對照使用說明書，聽、說、讀各功能兼具。近幾年裡，我們努力地跳脫傳統地球儀的框架，為不同需求的客人創造更多不同功能與形式的地球儀，希望讓地球儀不再只是地球儀，可以兼顧教育、擺飾、功能性。

地球儀總是給人的印象只注重於教育功能，難登大雅之堂，所以我們同時也希望可以將地球儀變成另類的室內裝飾擺飾，將地圖附加更多不同風格的圖面，也與臺灣國內知名插畫家作，將各種

獨特的圖案融入地圖中，讓小朋友更喜歡拿著地球儀繞著地球跑。研發更多不同功能的地球儀，我們更是開發了我們新的品牌 "IGLOBE x MYS" 我們的概念是，希望人們可以跟著我們一起玩地球。我們也期許我們可以開發出更多讓大家驚喜的地球儀，讓大家更喜愛與認識地球儀。

MAUYISING

Mauyising's business concept is to provide the users with the best quality globes with the most professional attitude and uphold the concept of steady development, and the pursuit of sustainable business management and growth.

Mauyising Enterprise Co., Ltd. inherited the design of Mr. Ben Ho, the chairman of the board, in 1983. It is the first specialized manufacturer of globes in Asia that integrates two molds in the northern and southern hemispheres.

Since then, Mauyising has continued to develop high-quality globes, seeking more additional functions and closer to the consumers' usage habits. For example, adding an audio pen reading function to the globe, and matching the Chinese and English instruction manuals, has both listening, speaking, and reading functions. In recent years, we have been striving to break away from the frame of traditional globes and create more globes with different functions and forms for guests with different needs. We hope that globes are no longer just globes, but can also take into account education, decoration, and functionality.

Globes always give the impression that they only focus on educational functions and are difficult to be seen in the elegant hall, so we also hope to turn the globe into alternative interior decoration, adding more maps of different styles to the map, which is also compatible with Taiwan. A well-

known illustrator, incorporating a variety of unique patterns into the map, making children more like to run around the earth with a globe. To develop more globes with different functions, we even developed our new brand "IGLOBE x MYS". Our concept is that we hope that people can play the globe with us. We also hope that we can develop more globes that surprise everyone so that everyone can love and understand globes more.
