金手獎宗旨

為激勵臺中地區中小企業升級及發展，臺中市政府指導臺中市工商發展投資策進會辦理「臺中市金手獎—績優中小企業製造業選拔表揚活動」，選拔經營穩健殷實，各方面表現卓越，並對社會有具體貢獻之中小企業製造業，給予公開接受表揚。

歷年申請廠商主要類別為金屬加工製造、機械製造、食品製造、醫療製造、民生用品製造等。今年金手獎邁入第 17 屆，邀請臺中市金手獎得獎廠商協進會（簡稱協進會）共同合辦，期盼本活動更臻完美。

透過辦理表揚活動，讓績優中小企業製造業的精神價值在歷屆得獎廠商之間傳承，除鼓勵得獎廠商持續精進努力，也讓追求卓越成為臺中中小企業製造業的關注目標，促進產業交流、共同進步。

中小企業是臺灣產業的活力來源，這些企業家們白手起家，在臺灣經濟蘊含最大能量的時候，透過他們勤奮的雙手，以及努力不懈的毅力，創造臺灣的經濟奇蹟，並成為下一輪經濟發展的動力。他們是臺灣產業界的「達人」和「領航者」，默默地推動世界往未來邁進。

本屆金手獎特地邀請國內產業界重要企業家、專家學者及社會賢達，以兩階段評選的高標準評選臺中市本屆金手獎得主。選出今年擁有產品優良、突破傳統、發展潛力、經營績效好、企業信譽佳的二十位金手獎得主，並透過「金手獎」頒獎典禮讚揚得獎者，並肯定得獎者的經營成果。

透過「金手獎」的嚴格評選和推薦，必定能讓臺中市的中小企業有更多的良性競爭和合作學習，讓不同領域的廠商能夠彼此交流：從經驗、技術、創意、行銷和產業升級，讓臺中市中小企業的水準向上提升，臺中市產業環境能向上升級，蓄積能量，推動新一波的產業改革。除了表揚和廠商聯誼，金手獎更要扮演積極的角色，連結中小企業未來發展需要的資源和市場，金手獎不只要讓人記得過去、肯定現在，更要走向未來。

Goal of Golden Hand Award

To encourage Taichung's small and medium enterprises (SMEs) to work on industrial upgrading and development, Taichung City Government has provided consultation and assistance for the Industrial Development and Investment Promotion Committee to hold the Taichung City Golden Hand Award: Outstanding Small and Medium Manufacturing Enterprises Selection and Awards Ceremony to recognize SMEs that have stable corporate operation, excellent performance in various aspects, and contribute to society.

Businesses that have attended the competition are manufacturers focusing on metal processing, machinery, food, medicine, and daily commodities. This year is the seventeen year of the Golden Hand Award, with the Golden Hand Award Association co-hosting the event to ensure it will be perfect.

The spirit and value of the previous winners are expected to be passed on via the ceremony. In addition to motivating the recognized enterprises to continue pursuing progress in the future, the Awards also seeks to make excellence a common goal for all SMEs in Taichung City, thereby facilitating industrial exchange and overall upgrading.

SMEs are the backbone of Taiwan's economy, and many of their founders started from scratch during the period when Taiwan's economy began to flourish. They helped to create the Taiwan Economic Miracle with their hard work and perseverance, and laid a solid foundation for Taiwan's economic development. These experts and heroes in Taiwan's industry circles have pushed the world forward, although their achievements are often underestimated.

This year the Golden Hand Award invited entrepreneurs, experts, academics, and representatives from other sectors in society to join the two-phase evaluation process and select the winners. At the end of the evaluation, twenty winners were chosen to be recognized for their performance in regard to product quality, innovation, potential, profits, and reputation. The awards ceremony, following the evaluation, serves to publicly honor these winners for their business operation efforts.

By passing through the rigorous evaluations, selections and recommendations of GHA, these award-winning companies certainly can generate more friendly competition and cooperate learning for the SMES of Taichung. In addition to enabling businesses in different fields to exchange experience, technology, creativity, marketing, and industrial upgrading. Such collaboration will comprehensively elevate the capacity of Taichung's SMEs and industrial environment as the basis for a new wave of industrial reform. Aside from achievement recognition and exchange, the Golden Hand Award are also proactive in integrating resources and markets for the development of the SMEs. The Golden Hand Award are not only a reminder of the glory of award recipients, but also a benchmark for today's commercial circle and a driving force leading us to the future.

臺中市 市長林佳龍

臺中是個正在發展的新興城市，擁有豐富的資源及發展契機，而活絡產業發展，帶動經濟動能是市府團隊的重要任務之一。在市府努力推動之下，近年來國外招商成果亮眼，目前已有台積電擴廠投資、美光記憶體、三井不動產投資臺中港及國泰永聯物流等，逐漸刺激整體產業及經濟發展，且為了鞏固都心區域能量，水湳智慧城的工程也持續推進，全力將水湳智慧城導入中央前瞻計畫，加速建構臺中先進智慧城市試驗場域，打造為全臺的模範。

臺中的工業區是臺灣經濟的發動機，政府應與產業界共同努力。要提升效能，除了政府擬定政策之外，還必須透過產業界的引導，才能真正解決問題。針對工業用地不足部分，市政府除配合中央政策清查工業區內閒置土地外，也持續開發產業用地，例如精密園區二期、太平產業園區、潭子聚興產業園區、豐洲園區二期等，並召開區段徵收公聽會，廣納地方意見，以利工業園區推動作業。而在缺水、缺電部分，持續推動各項再生能源（如風力、太陽能）及進行水利建設外，亦訂定太陽光電設備設置政策、建置水資源回收中心。

人才的部分，因應產業轉型升級，為提升勞工競爭力，市府以中小企業人才為優先培育對象，持續辦理創新人才培育系統化課程，以因應未來人才需求。而為解決精密機械業缺工情形，市府也設置 16 個就業服務站提供服務，舉辦就業博覽會及客製化徵才活動，並定期轉介企業進行求才服務。而「職涯發展中心」實體據點更接軌校園，為大臺中學子打造就學接軌就業的串聯式服務，縮短青年尋職周期及增加青年就業穩定性，期望能解決目前企業尋找人才的問題，例如臺中市金手獎得獎廠商與修平科技大學簽訂的人才培訓計畫 MOU，相信將有助產業界覓才。

臺中市金手獎得獎廠商協進會一直以來都是大臺中企業界的楷模，獲得臺中市金手獎的肯定，對於企業來說十分榮譽。臺中市金手獎從開辦至今已邁入第 17 屆，近兩百家的得獎者，匯集大臺中地區體質穩健的優良企業，以及優秀的新興企業，更有許多從傳統轉型至智慧化發展的企業們。臺中市金手獎得獎廠商協進會就像是一個累積足夠能量，準備蓄勢待發的青年，擁有無窮的精力、突破現狀的勇氣、前進國際的動力、共同進步的原動力。相信隨著臺中市金手獎得獎廠商協進會的推廣，這種進步努力不懈的影響力將會擴及整個中臺灣，讓臺中成為全國產業的領頭羊，帶著臺灣一起進步。

Chia-Lung Lin, Mayor of Taichung City

Taichung is a developing new city with abundant resources and development opportunities, and activating industrial development and bring in economic dynamics are an important mission of the city government teams. Because of the city government's enthusiastic promotion in recent years, business invitation sees remarkable results. Currently, there are TSMC's plant expansion investment, Micron and Mitsui Fudosan's investment in Taichung Harbor and Ally Logistic Property, etc., gradually activating the industrial and economic development. To strengthen the regional power in center of the city, in addition, the construction of Shuinan Smart City is also on the way, aiming in full force for it to be included in the central forward-looking plan, and speeding up in constructing Taichung into a pilot area of an advanced smart city and turning it into the model in Taiwan.

Industrial parks in Taichung are the engine of Taiwan's economy, and the government and the industry should work together. In order to increase the effectiveness, in addition to the government's policy-making, the industry's assistance is also needed to truly solve the problems. Concerning the issue of industrial land shortage, the city government not only conducts an inventory of idle lands in industrial parks according to central government's policy, but continues to develop industrial lands. For example, there are Precision Machinery Innovation Technology Park Phase 2, Taiping Industrial Park, Tanzi Juxing Industrial Park, Fengzhou Technology Industrial Park Phase 2, etc., and public hearings on zone expropriation are also conducted to gather local opinions in order to ensure the promotion of industrial parks. As for water and electricity shortage, besides various renewable energies such as wind power and solar power being promoted as well as water conservation construction, photovoltaic devices implementation policy is made, and water recycling center is established.

In human resources, in response to industry transition and upgrade, to increase workers' competitiveness, the city government targets human resources in small and medium businesses as the priority of training, and continues to hold systemized courses of innovative human resources for future need in human resources. To solve the shortage of human resources in precision machinery industry, the city government also sets up 16 job centers to provide services, holds job fairs and customized recruitment events, and introduces businesses to conduct recruitment services regularly. "Career Development Center" sites even enter the schools and provide integrated services for students in Taichung to connect employment to studies, decreasing youngsters' job-seeking cycles and increase their employment stability, aiming to solve the problems of the current issue businesses face in human resources recruitment. For instance, the human resources training plan MOU Taichung Golden Hand Award winners signed with Hsiuping University of Science and Technology is believed to help with recruitment in the industry.

Golden Hand Award Winner Association has always been the model of businesses in Taichung area, and being recognized by Golden Hand Award is a huge honor for businesses. It has been the 17th year since the introduction of Taichung Golden Hand Award; there are near two hundred winners, among which are stable and brilliant businesses as well as new businesses in Taichung area, and there are even many businesses transitioning from the traditional to smart development. Golden Hand Award Winner Association is like a youngster who accumulates abundant energy and is ready to strike, with endless energy, the courage to break the status quo, the motivation to go international, and the original power to advance together. It is hoped that with the promotion of Golden Hand Award Winner Association, the effect of advancement and never giving up will influence mid-Taiwan, making Taichung the pioneer of industries around the country and thus lead the advancement in Taiwan.

臺中市工商發展投資策進會 總幹事蔡世寅

臺中市金手獎從機械金屬、塑膠化工、電子電機、生物醫療、民生休閒及食品，六大產業中選拔出優良，足以成為臺中市中小企業界楷模的 20 家企業代表。工策會邀請擁有專業背景的產官學界的代表們擔任評審，希望借重評審的專業從創新研發、管理制度、人力發展、市場行銷以及企業社會責任等方面，為臺中選出優秀的廠商，也能給予所有參加選拔活動的廠商寶貴的建議及鼓勵。

追求科技，邁向智慧未來，是近年來大家追求的目標。市府與工策會也努力協助企業共同開發新技術，引進最新觀念及技術，集結產學研創新能量。將智慧應用落實於水湳智慧城，從水湳智慧城出發，未來將擴及大臺中所有的企業，市府更規劃「水湳智慧城場域驗證與服務合作計畫」，吸引航太科技領域、能源領域、電信業、環保領域、交通領域等產官學研代表瞭解計畫內容，期待帶動落實技術、蒐集數據、優化商業模式等效益，為臺中開創更多發展契機。

感謝選拔活動期間，由金手獎得獎廠商協進會羅光斌會長引領的歷屆得獎廠商協助評選活動，大家百忙之中撥冗而來，這股提攜後進不遺餘力的風氣，是為大臺中地區的表率。臺中市金手獎的選拔活動至今已邁入第 17 屆，金手獎協進會的發展與活力也如同即將成年的青年，擁有健全的體質及充沛的活力，更有不怕挫折的勇氣與動力。這都要感謝歷屆理事長的帶領，尤其是今年的羅光斌理事長及即將接任的林松源副理事長，將公司經營的聲聲有色之外，更是無私奉獻自己的心力與時間，帶領廠協會的大家共同進步，在未來將有更多優良廠商一同加入金手獎的行列，要和大家一起精益求精，邁向更美好的未來。

David Tsai, Director of Industrial Development and Investment Promotion Committee of Taichung City

Taichung Golden Hand Award recognizes and chooses 20 representative and excellent businesses from six major industries that can best serve as the models of small and medium businesses in Taichung, including fields in machinery and metal, plastic and chemical engineering, electronic and electric machine, and daily recreational activities and food. Industrial Development and Investment Promotion Committee invites representatives with professional background from the fields in academia, industry, and government to be judges, hoping to use their specialty to choose brilliant businesses Taichung based on aspects such as innovative R&D, management structure, human resources development, marketing, and corporate social responsibility. It is also hoped that all participants in the event can receive precious recommendations and encouragements.

Pursuing technology and sailing into a smart future is the common goal everyone is in pursuit of in recent years. The city government and Industrial Development and Investment Promotion Committee of Taichung City also work together to help businesses develop new technology, introducing the latest ideas and technologies, incorporating the new energy from the industry, academia, and institute. For example, smart application that starts in Shuinan Smart City will be applied to all businesses in Taichung area in the future. The city government even plans “Shuinan Smart City Pilot Area Verification and Service Cooperation Plan”, attracting the attention of representatives from fields in industry, government, academia, and institute to learn the plan. The fields include aerospace science and technology, energy, telecommunication, environmental protection, and traffic, hoping to lead to benefits such as implementing the technology, gathering data, optimizing business models, and introducing more developmental opportunities in Taichung.

We appreciate the director of Golden Hand Award Winner Association Kuang-Bin Lo's help in leading previous winners to participate in the evaluation event. The fact that everyone spares their time to come and the spirit to groom the next generation for success is the model of Taichung area. It has been the 17th year of the evaluation event of Taichung Golden Hand Award, and Golden Hand Award Winner Association's development and energy are like a youngster who is about to come of age, with stable and healthy body disposition and abundant energy, and the courage and motivation to face failures. They are all thanks to the leadership of directors in the past years, especially the incumbent director Kuang-bin Lo this year and the would-be successor vice director Song-yuan Lin, who not only run their companies successfully, but devote their energy and time selflessly, leading the association to advance together. In the future, there would be more brilliant Golden Hand Award winners to advance excellence and walk into a better future together.

金手獎得獎廠商協進會宗旨

The Mission of the Golden Hand Award Association

「臺中市金手獎得獎廠商協進會」以因應國內外經營環境快速變遷，藉產業間人才、資訊、管理、技術、市場等資源的互相交流與互補互惠，協助企業共同開發新技術、新產品或新事業，以促進企業轉型、升級並提高國際間競爭力為目的，並能提撥部份金額以扶助社會弱勢族群所需，以表本會對社會之關懷，並舉辦公益善行活動，為以促進產業發展並回饋社會為目標之優質社團。

In response to the fast-changing business environment in Taiwan and abroad, the Golden Hand Awards Association aims to integrate and exchange human resources, information, management, technology, and markets among different industries to assist enterprises in co-developing new technology, products, and business, thereby accelerating enterprise transformation and upgrading, as well as elevating the enterprises' international competitiveness. In addition, funds can be allocated to care for the disadvantaged members of society. The Association also hosts charity events as a quality social organization that sparks industrial development and gives back to society in return.

- ↑ 協助企業共同開發新技術
Assist enterprises in co-developing new technologies
- ↑ 促進企業轉型升級
Facilitate the transformation and upgrading of enterprises
- ↑ 提高中小企業製造業國際競爭力
Enhance the international competitiveness of SMEs and the manufacturing industry

WORLD MAKER

2018金手獎

二十位得獎廠商介紹

Introduction of the twenty award winners

PALMARY

大光長榮機械股份有限公司

PALMARY MACHINERY CO., LTD.

王志盟 總經理 General Manager / Tiger Wang

CNC 外圓磨床
OCD-3260CAM

大光長榮機械股份有限公司成立時取名為 PALMARY，其語意為：最優秀的、傑出的、勝利者的、最重要及最有價值的。

公司成立至今，工作團隊致力於下列重點工作：

1. 提高產品，高精密度的品質，精緻的配件、外觀、機種，拉大與台灣同業產品的差異化。
2. 深耕 TQM 全面品質管理觀念。
3. 執行「精實」法則教育，持續重視細節，致力於數據為本的試驗，要求員工負起持續提升效率、杜絕浪費的責任，將此概念於企業內部持續不斷執行。

運用公司核心價值「誠信、創新、品質、服務、精實、團隊」與貫徹經營理念，繼承固有工藝技術，發展高度培育人才，敝司提供連貫的服務。以「誠信」為基礎，從產品規劃、工件試磨到業務銷售及售後服務，皆由 PALMARY 的產品來支援。

- 企業專長：提供客戶完整的研磨技術解決方案，滿足客戶多元需求。
- 經營理念：顧客滿意、員工如意、股東得意。
- 企業標語：精密、完美、卓越。
- 品質政策：以專業技術，提供客戶永續性服務及完美產品，創造客戶最豐厚的利潤。
- 長期願望：推動節能減碳機器的開發，提供資源回饋社會，執行企業社會責任。打造成為社會企業。
- 企業願景：堅持永續發展經營策略，成為世界品質一流的磨床製造廠，完美的企業典範。

重要記事 Significant milestone

1998 公司成立於台中，資本額新台幣 1,600 萬元
1998 The company "palmary" was founded in Taichung with capital USD \$540,000.

2003 取得 ISO 9001 認證
2003 Received the ISO9001 certificate.

2016 台中市大里工業區工業九路二廠成立
2016 Palmary's 2nd new factory of 10,000 sq. meters in Gongye 9th Rd., Dali Industry Area was established.

2017 立式磨床 VIG-50 獲得波蘭工具機展金牌獎
2017 VIG-50 Vertical Grinder received The 89th Poland Mach-Tool Show 2017 Gold.

2017 大光長榮與鼎維工業股份有限公司策略聯盟，將產品線延伸至工具磨床
2017 PALMARY has the new acquisition of member which is TOP WORK INDUSTRY CO., LTD. in order to expand products to tool grinding machine.

2017 立式磨床 VIG-50 獲得第十四屆國家品牌玉山獎
2017 VIG-50 Vertical Grinder received The 14th National Brand Yushan Award..

2017 榮獲鄧白氏中小企業菁英獎
2017 The Company received Dun&Bradstreet SMEs Awards.

2018 立式磨床 VIG-50 獲得第四屆臺中市產業創新獎
2018 VIG-50 Vertical Grinder received The 4th Taichung Industrial Innovation Award.

Our company was named PALMARY which stands for:

- Excellent, Outstanding.
- The most important, the highest value.

The PALMARY team concentrates on the following work since established:

1. Products make with high accuracy and always keep improving quality. Our grinding machines equip with fine accessories, with good appearance, have widely model range which make us different from other Taiwanese same product makers.
2. Carry out the "TQM (Total Quality Management)" policy.
3. Execute education of "Lean Production" rule. Focus on details and concentrate on data basis experiment. We request employee to take the responsibility for increasing efficiency and decreasing waste.

We work with the core value "Honesty, Innovation, Quality, Service, Lean Production, Teamwork" & carry through business concepts, inherit the inherent craft technique, develop high technical ability and devote to employees training project. Therefore, PALMARY could provide all kinds of service with well-trained employees.

Take "HONESTY" as the foundation, from suggested the suitable machine model, sample trial grinding, marketing and after-sales service, is all supported by PALMARY team.

- Benefits : Provide TOTAL SOLUTION for grinding application as to meet kinds of different requirement.

MARWI®

台萬工業股份有限公司

Marwi Taiwan Industrial Co., Ltd.

白政忠 董事長 CEO / Patrick Pai

台萬工業企業營運組織與全球據點：

MARWI® Group 是全球最大的踏板製造廠商之一，擁有超過六個國家的製造產線及辦公據點（台灣、印尼、荷蘭、德國、捷克及美國）。

依據國際化市場趨勢，導入雲端科技整合客戶需求、市場通路、客戶訂單、營運總部 ERP 系統、物聯網資訊回饋及分析下，以電子化傳遞訊息。

為客戶提供最快速的產品交期、最貼近市場的產品開發、最節省成本的生產計算，邁向工業 4.0 的科技化公司。

MARWI 市場策略

- 滿足歐洲市場上小量多樣化的需求
- 發展更多高階及更多元的產品，抵禦與中國製造所帶來的劣質產品的衝擊
- 建立完整的配送中心及消費者 RMA 平台

The MARWI 願景

- 成為全球最主要的自行車配件供應商
- 提供最佳的品質及服務
- 持續研發及發展技術成為領域中的領航者

坐墊 -U 系列

Company Introduction :

MARWI® Group is one of the world's largest pedal manufacturers with production units and offices in 6 countries (Taiwan, Indonesia, Netherlands, Germany, Czech Republic and USA).

MARWI Group is matching the global technology trends with implementation of cloud technology by ERP operation information and analysis of the IoT.

This is to provide customers with the fastest lead times, and ensure the most cost-effective production calculations. To be a technology-oriented company moving towards Industry 4.0.

Market strategies

- Satisfy the small volume demand with diverse deliveries for private brand in the European market.
- Expand more into high-end and more complex products, with less competition from with low-end low-quality products made in China.
- Establish complete distribution center and Consumer RMA center.

The MARWI Vision

- Become the largest bike accessory supplier in the world.
- Provide products with the best quality and customer service.
- Continue to be technology leader and cutting edge production technology.

立欣精密股份有限公司

LI HSIN PRECISION CO., LTD.

張信平 總經理 General Manager / CHANG, HSIN-PING

聯軸器、側銑頭

立欣精密股份有限公司，成立於 2005 年 6 月，初期以專業代工工具機主軸相關零件為主。
因應市場需求，公司陸續添購德、日等國先進機台設備，滿足客戶要求及提高公司產品品質。

近幾年積極開拓國外市場，朝研發自有產品及建立品牌的方向努力；面對產業變化及經營成本不斷提高、人力短缺…等問題，公司更加快導入自動化設備，以便增加產能，提高效率，降低生產成本，來提高市場競爭力，並要求所有同仁秉持認真、負責的態度面對不同挑戰。

「沒有最好，只有更好」為公司品質追求目標，共同營造更好的工作環境，力求企業的永續發展。

Li Hsin Precision CO., LTD was established in 2005, engaging in professional subcontract about related components of machine tool spindle at the initial stage.

In response to market demand, our company started to purchase advanced machine equipment from Germany and Japan gradually to meet requirements from customers and also enhance the quality of the products.

In recent years, we have been focusing on exploring overseas markets, developing our own products, and building up own brand. Facing the problems like changes of this industry, the raising of operating costs, and shorthanded....., we accelerate the introduction of automatic equipment to increase productivity, improve efficiency, and reduce manufacturing cost to enhance market competitiveness.

Our company also requests all of the colleagues to adhere diligent and conscientious attitude to face different challenges.

We pursue the quality goal of "No best, only better." to co-create the better working environment and sustainable development.

至陽塑膠工業股份有限公司創立於 1972 年，已累積 46 年產品生產經驗，產品領域橫跨數百種行業。為國內少數兼具專業中空吹塑成型及射出成形專業塑膠廠，生產項目有汽機車塑膠油箱及零配件、醫療輔具、農機用品、及各項塑膠產品。提供客戶完整產品設計 (ODM) 及製造 (OEM) 服務。

身為追求專業化與高品質的公司，我們致力於品質的提昇，已於西元 2017 年通過 ISO9001 : 2015 及 ISO 14001 : 2015 年版認證，並且也取得 UN , CAPA , e-mark 等多項國際認證。

我們可以滿足客戶的各種生產需求，從概念性產品設計及 3D 列印開始，模具設計開發及測試，產品成型生產製造及組立，到法規測試認證都可以一次服務完成。

保險桿 BUMPER

六層油箱

Established in 1972, SHUN YANG Plastic CO. Ltd. has over 46-years plastic manufacturing experience. Product lines are engaged in hundred kinds of industries. This company is famous in Taiwan that integrates both extrusion blow molding and injection molding technology. Products include : car and motorcycle plastic fuel tank and accessory parts 、 medical health-care device 、 agriculture machines parts 、 and public construction products. This company provides customer complete ODM and OEM solution.

Pursuing professional and high quality, the company devoted in raising quality level. Passed ISO 9001:2015 and ISO 14001:2015 in 2017 and gained international certifications like UN, CAPA, e-mark, etc.

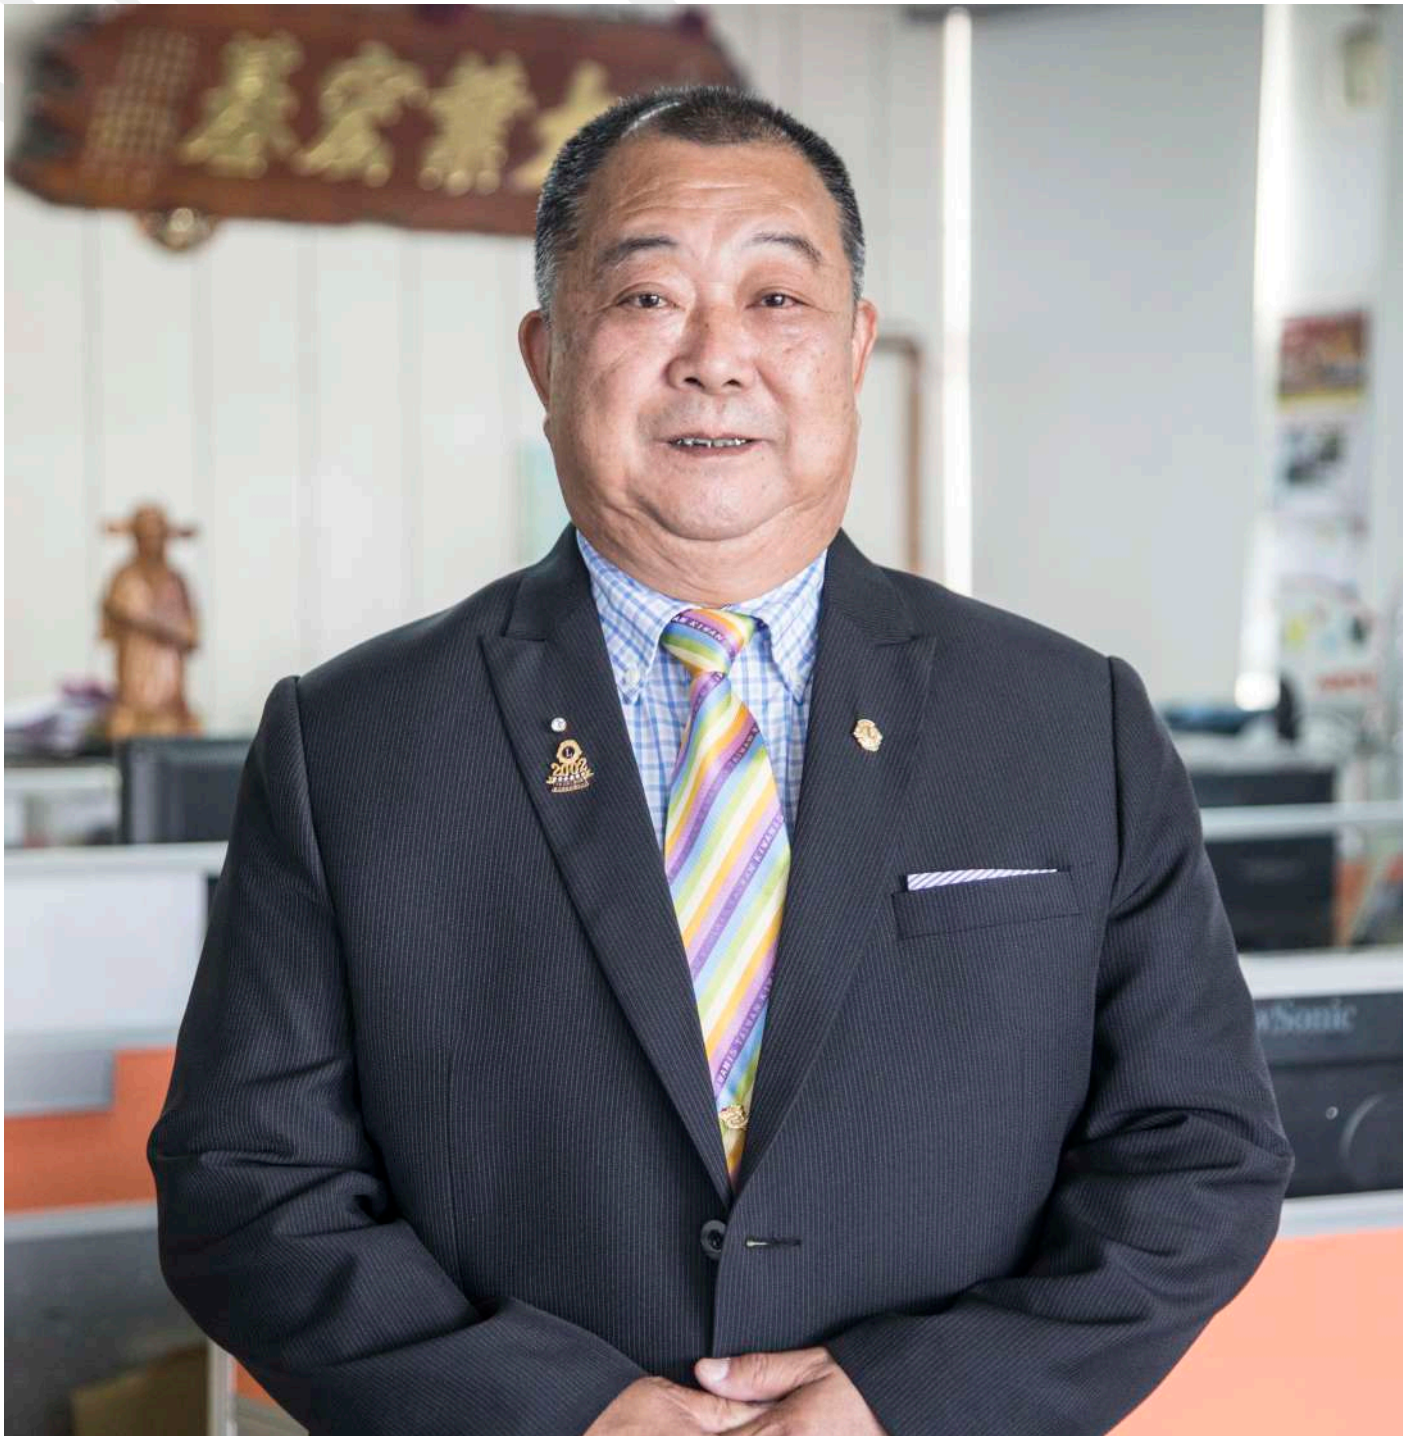

We can satisfy our customers demands, from concept design and 3D-print prototype, tooling design and trial, product manufacture and assemble, up to the final regulation test and certification. We can finish all service as mentioned above in one step.

佑益烤漆工業股份有限公司

YU YI INDUSTRIAL CO., LTD.

鄭鴻達 董事長 President / CHENG, HUNG-TA

佑益烤漆工業股份有限公司，最早創立於 1978 年主要從事腳踏車零件、運動器材烤漆代工為主，經歷 30 幾年歷練轉型，現以鋁板、不銹鋼板、大樓帷幕牆、隔音牆之金屬材料氟碳烤漆加工。

近幾年積極研發推展配合政府使用綠建築塗料，為因應地球暖化，並鼓勵建商、建築師及相關業界參與設計、規畫，從四大目標「生態、節能、減廢、健康」發現綠色建築的大宗旨，讓我們為地球盡一份力量。

本公司為全臺灣唯一獲得美國 PPG 塗料商、日本德亞塗料商、本土峰源塗料商 kynar 500 認證之公司。

本公司經營理念：服務至上、技術第一、價格合理、永續經營。

品質政策：顧客滿意、品質至上。

天境 360 與萬通台北

海洋科技博物館

Yuyi Industrial Co., Ltd was originally established as a company specializing in painting of bicycle and exercise equipments. With more than 30 years's experience, we are now providing service in Kynar 500 based painting on aluminum plate, stainless steel plate, curtain wall, sound barrier fence.

In recent years, to respond to serious global warming problems, we have been developing and using green building paint. In addition, we also encourage construction companies, architects, as well as companies in related industries to participate in designing, planning of green building paint, and at the same time increase awareness of the purpose of green building through 4 main goals of Ecology, Energy saving, Waste reduction, Health. We strongly perceive our responsibility to do something for the earth.

In Taiwan, we are the only company that acquired applicator certificates from Kynar 500 certificated companies, PPG industries, TOA, and FON-EUAN PAINT.

Our company philosophy : Customer orientation, Technology first, Reasonable price, Business sustainability. Quality policy : Customer satisfaction, Quality first.

In 2015, applicator certificate acquired from Kynar 500 certificated company, TOA Resin Co., Ltd.

2018 年增建佑益新式廠房
In 2018, new factory added.

協誠鋼模股份有限公司

SA CHEN STEEL MOLD CO., LTD.

林志銘 總經理 President / Scomin Lin

協誠鋼模公司創業以來秉持誠信、務實、積極的企圖心及『專業、創新、服務』的經營精神致力於開發各種精密塑膠模具設計製造、射出成形。30 餘年來，在全體員工的努力下，公司所研發製作的模具產品也隨著台灣經濟的起飛而有階段性的變革。

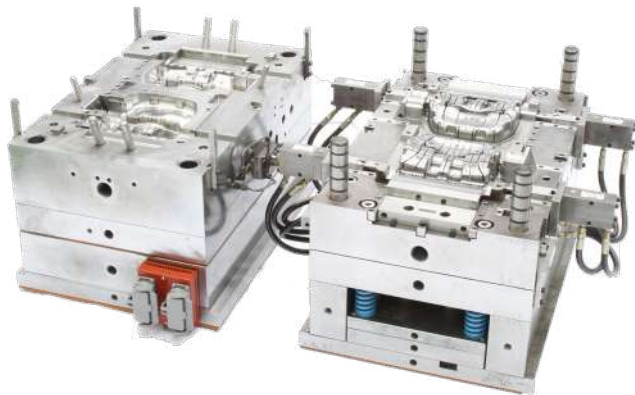

早期所製作的模具產品主要為自行車零件、3C 用品與相機零件等，後來隨著產業之發展逐漸轉型為半導體與汽車產業及事務機器產品的塑膠件模具為主，例如：IC 封裝廠所使用的 IC tray 或是外商電腦的零組件產品，近期則以開發綠色光電及醫療器材之模具為主，30 餘年來已成功開發完成超過 7,000 種以上各式各樣的模具，供應台灣本地及外銷世界各國資訊、半導體、醫療及汽、機車產業等。

由於公司所提供的模具品質精良，讓配合生產之工廠均能穩定製造出優良的產品，深受當地客戶端肯定。

Since foundation, SA CHEN STEEL MOLD has developed numerous kinds of Mold with the attitude of Integrity, Pragmatic, and Active; along with the spirit of management which are Profession, Invention, and Service. With the effort put by all the staffs, Our Mold Product has distinguished Innovation in these thirty-something years.

In the early stage, our Product is mainly Bicycle Part Mold, 3C Production Mold, and Camera Part Mold. Later following by the Industrial Transformation, our major Product then becomes Automobile Mold, Office Appliance Mold and Semiconductor-related Mold, such as IC Tray, Computer Parts, etc.. In recent, we focus on developing Green photoelectric and Medical Parts Mold. In these thirty-something years, we have successfully developed over 7,000 kinds of Mold, supplying to the Customers around the world.

With decent quality, Molds Made by SA CHEN is capable of helping factory produce stably and nicely, leading us to receive widespread recognition from the customers.

2017 通過 ISO 9001-2015 認證；榮獲健康職場認證標章之工廠
2017 ISO 9001-2015 Certificated; Taiwan Accredited Healthy Workplace Certificated.

松詠工業股份有限公司

SAME YONG INDUSTRIAL CO., LTD.

陳莊壽 董事長 President / Chen, Chuang-Shou

松詠工業股份有限公司於 1983 年成立以來，一向秉持不斷創新之理念，作為經營之核心價值，透過持續的研發與測試，將傳統的沖壓技術全面提升，不僅注重品質的管控、更要求高效率的產出，以專業的技術來為客戶打造精良的產品，精密零件無斷面加工，精密沖壓各類零組件，以客戶滿意為原則。

『優良的品質』一直是我們經營公司的理念與政策，從進料檢驗、首件檢驗、製程管制巡檢、出入貨全檢 / 抽檢，每個都經過嚴格的把關，並持續提升既有的品質，為實現客戶的滿意度而努力不懈，不斷增加了國際競爭力，近年來更開創了台灣的獨特專利品牌，我們的研發團隊以專業的技術不斷開發多款【多功能智慧打釘槍】，均獲得專利及全球市場的熱愛，2012 年更獲得【國家發明獎—創新銀牌獎】的殊榮，我們藉著持續不斷的要求以提升自有產品的質量，以獨特性、多功能性、高規格的創新來創造有高度附加價值的產品，我們的專業團隊將會不斷研發創造出高品質的服務與高價值的商品。

重要記事 Significant milestone

1983 松詠公司成立

1983 The establishment of SAME YONG INDUSTRIAL CO., LTD.

1995 成功研發出「無斷面沖壓技術」，成為同業中的先僑。

1995 Successfully developed "fine blanking technology" and became a pioneer in the industry.

2007 通過 ISO9001：2000 之國際認證。

2007 ISO9001:2000 international certification certified.

2008 多功能智慧打釘槍申請台灣及歐美各國專利。

2008 Multi-purpose smart staple gun applied for patents in Taiwan and countries in Europe and the US.

2010 通過 ISO9001：2008 之國際認證。

2010 ISO9001: 2008 international certification certified.

2012 多功能智慧打釘槍榮獲【國家發明獎 - 創新銀牌獎】的榮譽。

2012 Multi-purpose smart staple gun was awarded Silver Medal of National Invention and Creation Award.

2018 通過 ISO9001：2015 之國際認證。

2018 ISO9001: 2015 international certification certified.

Same Yong Industrial Co., Ltd. established in 1983, has always adhered to the concept of continuous innovation as the core value of our business operation. By continuous RD and testing, we comprehensively upgraded and improved the traditional stamping technology, not only focusing on quality control, but also requiring high efficiency outputs. Through professional technology to produce sophisticated products for customers—fine blanking and precision stamping of various components - based on customer satisfaction.

"Excellent quality" has always been the philosophy and policy of our operating company. From the inspection of raw materials - first part—production control—100% or random check before shipment, each of them has undergone strict checks and continuously upgrades in order to achieve customer satisfaction, and constantly increase international competitiveness.

In recent years, Our R&D team developed a series of patented multi-staple tackers and obtained the Silver Medal of Taiwan National Invention Award. We continue to meet the requirements to enhance the quality of our own products, with uniqueness, versatility and value-added orientation. And our team will be keeping continuously to develop high quality services and high value products.

ASHUN

油順精密股份有限公司

ASHUN FLUID POWER CO., LTD.

王進勝 董事長 President / Jerry Wang

3000psi 治具油壓動力單元

油順精密成立於 1984 年，工廠位於臺中市精密機械科技創新園區二期，佔地 1 千 6 百坪。以液壓動力系統設計為企業基礎，多年來致力研發、生產各式液壓產品（液壓缸、液壓閥、活塞式蓄壓器、液壓動力單元），客製化產品達 90%，產品成功外銷遍及全球且獲得歐、美、日等工業國家認同。

油順精密努力培育人才進修，不斷研發新產品，並以優異的產品品質與專業技術，符合市場需求達成客人期望。

為提升品質的穩定性與生產技術，不斷引進自動化設備，使工廠有良好的生產管理與品質管制程序，產品品質更加完美。

展望未來，油順精密將更積極提升專業生產技術、響應環保、培育人才、用心公益，以期邁向國際化創造百年企業奇蹟。

ASHUN was established in 1984. The factory is located in Taichung Precision Machinery Technology Innovation Park Phase II, total land is 5,280 square meters. ASHUN is based on fluid power systems, makes efforts to research, develop and manufacture various of hydraulic products (hydraulic cylinders, hydraulic valves, piston accumulators, hydraulic power units) and almost products are customization.

All products are exported worldwide successfully and get agreed by industrial countries, such as Europe, USA and Japan.

ASHUN exerts to train excellent talent, research and develop new products constantly, with excellent quality and professional technology to meet markets demand and fulfill customers' requirements.

In order to promote the stability of quality and manufacturing technology, we have been replenishing automation equipment. Hence, factory has good manufacturing management and quality control procedures, the quality of products will be more perfect. Prospect of the future, ASHUN will more actively enhance professional production technology, go Green activities, train excellent talent, participate in affairs of public welfare actively, look forward to moving toward internationalization and create a century enterprise miracle.

IVYHOUSE

品菓國際企業股份有限公司

IVY HOUSE Intenational Enterprise Corp.

蔡采妍 總經理 General Manager / IVY TSAI

企業客製，食尚魅力，佈局通路國際化。

品菓於 1999 年投入食品業，2006 年元月自創並擁有兩個品牌，一個以深具台灣地方性特產的寶之味，一個是以歐式西點休閒零食為主的「Ivy House」。

最早源起於 Ivy House 替五星級飯店製作迎賓禮，及為各知名百貨公司食品業者代工手工餅乾而開始，繼而開創自己的品牌。

以純手工細製為主，精心烘焙，以天然且完美的口感分享給大家！所有產品採用嚴選素材絕不添加化學香料，人工色素及防腐劑。

我們秉持的是低糖、低脂、高纖、純手工細製，絕對純淨自然、安全。

我們更嚴選素材、精心烘焙，邀請名家設計時尚包裝，並為企業量身訂製專屬的伴手禮客製化商品之客戶迎賓禮。

實現企業社會責任，創立素人加盟連鎖複合式輕食體系，幫助弱勢族群。

葡萄玫瑰酥

花博餅禮盒

Ivy House launched into food industry in 1999, and created its two brands in January, 2006. One is “The Taste of Taiwan” of Taiwan’s local specialties, the other is “Ivy House” targeting European recreational snacks.

Ivy House originated in producing welcome gifts for guests for five-star hotels, as well as acting as OEM of handmade cookies for various famous food businesses in department stores, and then launched its own brand.

Ivy House’s products are all handmade and carefully produced, baked with care to share the natural and perfect taste with all! All products are produced with carefully selected ingredients, chemical free, artificial pigment free, and preservative free.

We insist in low sugar, low fat, high-fiber, and all products are handmade and carefully produced. They are guaranteed to be pure, natural and safe.

We even carefully select ingredients to bake with care, inviting professionals to design the package, and we also produce customized exclusive products for businesses to be used as client welcome gifts.

盈錫精密工業股份有限公司

國愷興業股份有限公司

KUO KAI INDUSTRIAL CO., LTD.

鄭振企 董事長 President / Allen Cheng

—今日客戶無理的要求，明日將成為業界的標準—

國愷興業股份有限公司創立於民國 82 年，堅持以客為尊，並以此座右銘作為勉勵，提供高品質產品服務顧客。

國愷主要營業項目專注於 CNC 車床、銑床代工與零組件設計開發製造，舉凡福特汽車、奧迪汽車、Ducati 機車、Yamaha 機車、捷安特自行車、中科院飛彈…等零組件、醫療器材的人工關節、鈦合金骨釘、骨板…，以及大陸首架自製客機 C919 的機翼齒輪部品，也都有來自國愷所製造的零組件。

目前的機械設備除了國產 CNC 車床、銑床外，另有進口 STAR 走心車床、日本與德國 DMG/MORI 車銑複合機、五軸加工機…等，總數 60 餘台，以及高精度的量測設備：三次元量測儀、輪廓儀、粗度儀…等，公司除了代工外也致力於新產品的研發，從製圖打樣到量產都可快速精準的加工生產，以滿足顧客多方面的需求。

自行車花鼓

The unreasonable requirements of customers nowadays will be the standard of the industry in the future!

Established in 1993, the core value of Kuokai Industrial Co., Ltd is to be highly customer-oriented and provide high quality products to customers.

Kuokai's main business projects focus on CNC lathes, milling machine OEM and the design and development of components. Components produced from Kuokai's can be seen in different fields, for example, vehicle industry such as autos from Ford and Audi, motorcycles from Ducati and Yamaha, and the bicycles from Giant; medical industry, for instance, artificial joints, titanium alloy nails, bone plates; aerospace industry, missiles from Chinese Academy of Sciences and even the wing gear parts of the first homemade passenger aircraft C919 in china.

Currently, Kuokai has more than 60 machineries on site, besides domestic CNC machines and milling machines, Kuokai imported STAR heart-turn lathes, five-axis processing machine, and DMG / MORI turning and milling machine from Japan and Germany. Also, the high-precision measuring equipment, such as CMM, contour measurement instrument, roughness meter, etc.,

In addition to OEM, Kuokai is also committed to the research and the development of new products, from drafting, proofing to producing the real products, Kuokai can present precising production in order to meet the requirements of the customers.

鈞達精密股份有限公司

THETA PRECISION CO., LTD.

李智偉 董事長 President / Li. Chih-Wei

Theta Precision specializes in R&D, design, assembly and maintenance of precision spindles for machine tools. We adhere to the development tenet of "strict and steady, excellence, technological innovation and sustainable operation", and makes precision quality and technical support services of precision spindles to the ultimate craftsmanship. We do the brand marketing worldwide with the "THETA-SPINDLE" precision spindle.

During this decade we continuously added new software, hardware and hardware equipment such as production, inspection and information management. We continue to have employee education and training to enhance human resources, and focus on green energy and environmental protection to establish a high-quality work environment to improve work efficiency and respond quickly to customers' demand.

We also cooperate with the Ministry of Economic Affairs, the Labor Development Agency, the Association and other program's grants and awards, and cooperate with universities and colleges to provide industry-study cooperation and provide young students for corporate visits, short-term trainees, and long-term corporate internships. The Youth Employment Program and the Teacher's Lecture Teaching cultivate students to implement the spirit of practice and enthusiastic participation in local public welfare activities.

Our business philosophy emphasizes "Perfect quality, meet customer needs" in production; rigorous and refined in manufacturing; For our suppliers, we emphasize "win-win cooperation and share profits"; We contribute to society and hope to "create a good environment and a happy enterprise."

鈞達公司專精於工具機精密主軸研發、設計、組裝及維修，秉持「嚴謹穩健、精益求精、技術創新、永續經營」的發展宗旨，將精密主軸的製作品質及技術支援服務做到極致工藝化，以「THETA-SPINDLE」自創精密主軸品牌行銷全球。

創立十多年期間更是不斷的增設新生產、檢驗、資訊管理等軟硬體設備，持續辦理員工教育訓練以提升人力資源，注重綠能環保意念建立優質工作環境，以提高工作效率快速回應顧客需求。

我們也積極產官學合作榮獲經濟部、勞發署、協會等肯定計畫補助與獎勵，與各大學院校等，進行產學合作也回饋年輕學子提供企業參訪、短期見習、長期企業實習、青年就業學程、業師講座教學培育學生落實實踐精神，熱心參與在地公益活動等。

經營理念在生產上強調「品質完美、滿足客戶要求」；製造上的講求嚴謹、精益求精；對外廠商在意「雙贏合作共享利潤」；對社會的貢獻希望「營造有善環境、打造幸福企業」。

揚恩科技有限公司

YANG ANN TECHNOLOGY CORPORATION

魏連峯 董事長 President / David Wei

張世昌 總經理 General Manager / Scott Chang

揚恩科技，成立於 2005 年，以 13 年的專業技術，提供客戶品質最佳的產品、建立最好的服務，以誠信經營是我們對客戶的承諾，並於 2017 年取得 ISO9001:2015 品質保證。

揚恩主要營業項目為精密零件設計、客製化機構設計及 CNC 精密加工等。擁有多種專業製造機台，以滿足客戶需求，包含 CNC 銑床、CNC 車床、放電機、線切割機磨床、機密檢測機台等，另有烤漆設備。

我們可依照客戶要求服務銑床零組件、車床零組件、模治具、其他產品等，服務產業橫跨半導體、光學、汽機車零件等。

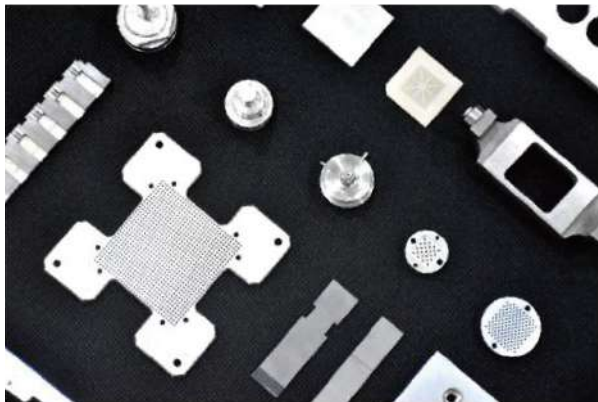

我們有專業工程師團隊、設計製圖團隊、品保團隊等，均能以優質服務、創新技術、嚴守誠信、把關品質的核心價值，為客戶提供最好的品質服務。

Yang Ann Technology Corporation established in 2005, provides customers with the best quality products and the best services with 13 years of professional technology. Operating in good faith is our commitment to customers, and we achieved ISO9001:2015 quality certification in 2017.

Our main businesses include: precision parts design, customized mechanism design and CNC precision machining, and we have a variety of professional manufacturing machines to meet customers' needs, including: CNC milling machines, CNC lathes, electric discharge machines, wire cutting machines, grinding machines, precision testing machines, etc. We also have paint baking equipment.

We can customize milling machine components, lathe parts, molds & jigs and other products according to customers needs. The industries we serve cover semiconductors, optical components, auto parts, motorcycle parts, and more.

Our professional engineers, design teams, quality assurance teams, etc., provide customers with the best quality and service through our quality service, innovative technology, strict adherence to integrity, and core value of quality control.

寶特瓶粉碎洗淨回收系統

粉碎機、破碎機、磨粉機、篩粉機普聯專業設備。

普聯專業製造多樣的粉碎機、破碎機、磨粉機、篩粉機設備，超過百種以上的機種。粉碎機與破碎機的使用是多元性的，可被連結於各種有利生產線中。除此之外，普聯也供應輸送、儲料設備、乾燥、混合機、專用機、輔助設備、環保回收設備及中央供料系統。

普聯全系列產品除了以精密、實用、耐力佳受到專業肯定，並善盡社會責任，將環保概念融入於產品研發中，提高機械設備之運作效率。以客戶需求導向為經營基礎的普聯國際，非常重視來自全球 100 多國客戶的使用心得與經驗資源。新服務時代的來臨，我們由前期以橡膠、塑膠產業為主的機件供應商，到今日橫跨多行業別（食品市場、環保市場）的技術領域。客製化商品與專案處理的個性化服務模式，為您開創更具效益的產能、更貼近需求的設備。逐年擴大的國際服務範圍與技術交流，除了深受全球客戶的專業肯定，更與各國建立深遠關係的緊密連結。

Plastic Granulators, Conveyor Machine, Rubber Belt Conveyor

Pulian provides variously plastic granulators, plastic granulating, plastic shredder, plastic crushers, plastic recycling machine, conveyor machine, rubber belt conveyor, eps granulator and plastic shredders equipment over 100 models to satisfy customer. The granulators and shredders can be used multiple ways and be adopted with every producing line. In additional, we supply conveying storing equipments, drying, mixing & blending equipments, specialized machinery auxiliary equipments, plastic recycling machine & equipments, and centralized system.

Pulian realize that we need to do our part in social responsibilities, utilizes environmental protection concepts in our designs for all our products, successfully innovate systems that are energysaving to re-sculpt scrap unwanted material to new usable material, increasing its value and saveproduction cost.

Pulian is Customer-Orientated, that values the experiences and feed backs received from customers from over 100 different countries. A new age of services is upon us, from servicing customer from rubber and plastic manufactures as our main customer, till today, we have expanded to (food industry and recycling industry). Customization and one on one servicing model is our marketing model to better service our customers to create more effective machines and products. With our ever expanding global customers and partners, our services and products solidifies our position as being "professional, and reliable" getting praise from the global market, consequently solidifies our relationships with these international customers worldwide.

豪霖工業股份有限公司

HAULING INDUSTRIAL CO., LTD.

柯秉庠 董事長 President / Tony KO

EVA 拖鞋

「鞋子」是人類食衣住行中重要的一環，好的鞋子會讓您足下風光、好的鞋底會讓您每邁出一步感受心靈舒適活力倍增，豪霖工業股份有限公司成立至今，一直秉著為人類足下的舒適提供最佳的服務而努力。

本公司成立於西元 1987 年，創立初期即以生產運動鞋、休閒鞋、高級女鞋之各種發泡鞋材為主，在這個領域中，經過多年的努力與經營，我們已博得客戶最佳的肯定，在同業中更獲得良好的認同與支持。

本公司在全體同仁共同秉持著刻苦勤儉，努力不懈的精神，並不斷的引進各種自動化生產設備，滿足不同鞋款客戶的需求，以提升生產的質與量，且積極推動生產標準化，合理化的生產製程，以降低生產成本，配合市場的需求，提高產品競爭力，並不斷的創新研發新型鞋底，期與世界流行接軌，為客戶爭取更多的效益。

我們相信只有最好的品質，與最合理的成本相輔相成，才可以為客戶做最好的服務，也為自己謀得最佳的生存空間。今日 豪霖工業 已進入第三十二個年頭，也即將邁入企業最精進的年代，我們一直在跟自己的腳步賽跑，在眼前既定目標的帶領下繼續為帶動鞋類技術工業的前進發展，努力的踏出每一步腳步，我們始終相信一步一腳印；走過的路，必然留下足跡；努力過，前途必將更光明！

"Shoes" is an important part of human food and clothing line , good shoes will let you downstairs scenery, good soles will make you step by step feel comfortable and vibrant heart , HAULING company has been Bingzhe for the human foot The comfort of providing the best service and effort.

The company was founded in the early to produce sports shoes, casual shoes, senior shoes of various foam shoe mainly in this area , after years of effort and business, we have won the best customer certainly in the industry more Get good recognition and support.

The Company common in all my colleagues hold a hard-working , hard-working spirit, the Company has always been engaged in the production of various automated production equipment to meet the needs of different customers in order to enhance the quality and quantity of production and actively promote the production standardization, Rationalization of the production process to reduce production costs, with the market demand, improve product competitiveness, and continue to innovate research and development of new soles, and popular with the world, for customers to strive for more benefits.

We believe that only the best quality, and the most reasonable cost complement each other, can do the best service for customers, but also for their own to find the best living space. Today HAULING Industrial has entered the thirty-two year, is also about to enter the most sophisticated era of business, we have been with their own footsteps in the eyes of the goal under the leadership of the footwear industry to continue to lead the development of footwear industry, Efforts to step every step, we always believe that step by step; through the road, must leave footprints; efforts, the future will be more bright!

環環科技有限公司

Ringtech Instruments Co., Ltd.

陳梅桂 總經理 General Manager / Rose Chen

超音波清洗機
從實驗室桌上型到手動、半自動、全自動清洗機，一應俱全。

『環環科技有限公司』成立於 1992 年，初期以環保儀器代理為主。由於我們熱忱的服務，因此成為客戶最依賴的供應商，並且在因緣際會下，協助客戶找到超音波清洗機。

公司於 1996 年起與日本 HONDA 合作，開啟超音波清洗機代理至今，初期以高週波清洗機為主，協助半導體及液晶面板產業製程的清洗。

而在 1998 年因應客戶 Cost down 的期待，開始製造低週波清洗機，來迎合客戶 "非製程產品清洗" 的需求。並敦聘工研院量測所顧問不定期蒞臨公司指導教授「超音波清洗機」相關研發製造專業知識。

公司一直秉持著協助不同產業客戶找到產品最佳清洗方案的精神，不斷研發、創新、製造『環保、節能、減碳』的清洗機，協助客戶解決清洗方面的困擾。並取得「ISO 9001:2008(CNS 12681) 國際驗證」、「ISO 9001:2015」國際驗證，產品在有效的管控機制下，品質不斷的提昇，是給予支持我們的客戶最大承諾。

放眼未來，面對產業多變的型態，我們期許成為國內及國際上製造超音波清洗機的頂尖，提昇產品國際能見度，創造企業競爭力。

Ringtech was established in 1992 and started as a distributor for environmental instruments. We soon became our customers' most trustworthy supplier; incidentally, as per request from customer, we found suppliers of ultrasonic cleaner and started the journey of this business.

We have established our partnership with HONDA since 1996 and have been distributing ultrasonic cleaners starting with high frequency cleaners for use in semiconductor and LCD industries.

Later on in 1998, we started our MIT ultrasonic cleaners for "non process product cleaner" because of "cost down" expectations from customers. Furthermore, we have invited a consultant from the Industrial Technology Research Institute to enhance our expertise in ultrasonic cleaning technology.

We have devoted ourselves in solving cleaning problems and providing the most suitable cleaning solutions for our customers. We have continuously invested in research and development to manufacture the most "environmentally friendly, energy saving and carbondioxide reduced" cleaner. Moreover, we have acquired ISO 9001:2008 (CNS 12681) and the latest ISO 9001:2015 International Quality Management Certification in providing our customers with quality promises.

In the future, we will endeavour to enhance our technical expertise and strive to become one of the leading companies within the ultrasonic cleaning industry domestically and internationally.

鴻元生技股份有限公司

DAY SPRING BIOTECH CO., LTD.

謝忠儒 業務經理 Sales Manager / Lawrence Hsieh

鴻元生技股份有限公司創立於 1974 年，40 年來致力於天然食用色素的專業生產。為台灣首屈一指的製造商。自公司成立以來，一直堅持以最高誠信原則、務實的態度、永續經營的理念勇往前進。我們著重在追求技術上突破、確保品質、完善的銷售規劃，為客戶提供最好的服務。
